PLANNING RETREAT 2020

PROGRESSIVE PROFESSOR WRITES:

Where can I find enrollment data by course for some experimental courses I am rewriting for a new program certificate?

Hi Progressive Professor,

Enrollment and course information is found in the 'Program Data' Tableau workbook on the Institutional Data page on the AHC IE website. On the intro page, choose the program subject code. Navigate the tabs at the top to section '1 Outcomes'. Click the 'course' filter at the top and choose the specific course you want data for. Sections, headcount, enrollment, retention, success and FTES are available. Repeat for every applicable course.

PLANNING RETREAT 2020

FEBRUARY 20-21, RADISSON HOTEL

The annual college planning retreat was held on February 20 and 21 with 70 AHC colleagues, five students, and two trustees in attendance. There were 140 college employees invited, with 75 attending at least one of the two days.

The retreat was facilitated by Dr. Al Solano, Founder and Coach of the Continuous Learning Institute. The focus of this year's retreat was to collect input to draft the new Educational Master Plan. The retreat began with a poster carousel to familiarize participants with services the college currently offers. The attendees then worked in groups to discover loss and momentum points of the student pathway as defined by the Completion by Design framework. The Completion by Design framework identifies the following critical student journey milestones:

- Connection: From interest in college to application.
- Entry: Enrollment to completion of first college-level course.
- Progress: Enrollment into program of study through 75 percent completion.
- Completion: Complete program of study.
- Transition: Successful transition to a four-year institution or workforce.

Participants were then tasked with working on strategies for one pathway point of their choosing. Data were provided by Institutional Effectiveness for each pathway point to help groups identify outcomes and strategies to mitigate loss points.

Retreat materials can be found on the portal at: https://hancockcollege.sharepoint.com/sites/Groups/other/retreat

Student Journey

CONNECTION Initial Interest through Submission of Application

ENTRY Enrollment through Completion of "Gatekeeper" Courses

PROGRESS Entry into Course of Study through Completion of 75% of Requirements

COMPLETION Complete Course of Study through Earning a Credential with Labor Market Value

TRANSITION Movement to Four-Year University or to Workplace with Living Wage
