## New buildings!

#### Oversight committee update

The eight-member Measure I Citizens' Oversight Committee continues to meet quarterly. Meeting agendas, notes and monthly updates regarding Measure I projects are online at www.hancockcollege.edu. Click "Measure I Info" on the homepage.

Seated from left: Milton Washington, Barbara Nelson, Andrew Maldonado, Terry Dworaczyk, and Joanie Jamieson; standing from left: David Schmarje, Camillo Wilde, Jack *Pellerin, and college Superintendent/* President José M. Ortiz.

In less than a year, funding from Measure I, the \$180 million bond passed by voters in June 2006, has begun to transform the Allan Hancock College campus. Bond funding helped complete two new classroom facilities: the 44,302 square-foot Science building and the 18,482 square-foot Community Education building. Both open for students this fall.

"Already the bond has made a huge impact collegewide," said José M. Ortiz, Allan Hancock College superintendent/president, "not only in helping us to complete two major construction projects, but in advancing our technology to the next level through software and equipment."

The Science building has been nearly two years in the making and will offer state-of-the-art classrooms and labs. The college's entire health sciences program, including nursing and dental assisting, will also move to the new building. In anticipation of the increased space, the LVN/RN program expanded to 80 students. The Community Education building will house all of Community Education (formerly in building T), along with a computer lab, ESL classrooms and a professional culinary teaching kitchen. The Noncredit Counseling and Matriculation offices will also be centrally located in this new space.

Through Measure I funding, the college is also currently planning for the construction of a new public services facility for police and fire training and a new "one stop shop" student services building. Additional major construction and technology projects are scheduled, including a multimillion-dollar mainframe computer system to support student and operational needs.

"With the completion of these new buildings, and the January 2007 opening of the new Academic Resource Center, the campus is truly transforming. It is an exciting time for Allan Hancock College, our students, and our community," said Ortiz.

## Nursing simulator helps create real-life environment

A 64-year-old patient lies in a hospital bed complaining of chest pains and difficulty breathing and suddenly goes into cardiac arrest. Emergency procedures are put into action. Nurses check vital signs, check monitors and initiate CPR. Air fills his lungs, intravenous medications are administered, a shock is delivered to restore a heartbeat and the patient is breathing on his own again.

"Well done," comes a voice from the other end of the room. And the training exercise is over.

Though the situation is not real, it is part of realistic integrated simulation training now being used by Allan Hancock College nursing students.

The trainer, called a Human Patient Simulator (HPS), is a computer-driven, full-sized, life-like mannequin, nicknamed Pat.

This ultra-sophisticated model comes with full clinical features: its eyes blink, it breathes and speaks, it has a heartbeat and pulse, realistic skin

and pliable lips, and has appropriate physiological responses to events. In a nutshell, it comes with a complete array of simulated pulmonary, cardiovascular, metabolic, and neurological systems.

"This is real, hands-on practice with situations that students won't see every day in a hospital," said Holly Stromberg, R.N., director of the Allan Hancock College nursing program. "It can simulate just about anything that can happen to a patient."

Virtually any potential clinical experience can be programmed into the computer and customized by the instructor. These include real-life emergency situations such as congestive heart failure, pneumonia with septic shock, stab wounds, subdural hematoma, and countless others. Students can insert an IV into the pliable "skin," place a urinary catheter with return of colored fluid, monitor breathing and heart sounds, observe lung expansion, hear bowel sounds—all features that make it more realistic.

"I enjoy having this training; it's so close to real life without a real patient," said nursing student Soledad Salais.

The instructor can edit, tailor or modify a scenario in the computer to fit the learning objective, create new simulations, or make the situation more complicated as events occur or as actions change.

"You really learn to assess and adapt to the situation," said nursing student Don Phillips. "The responses to interventions are very life-like, and you see the effect immediately."

The college's Measure I funds have helped purchase a comprehensive software package for full curriculum integration of the technology.

The cost for one human patient simulator is \$40,000, made available to Allan Hancock College through a grant from the California Community Colleges Chancellor's office.

#### World-class guitar festival Sept. 21-23

The three-day La Guitarra California Festival is held every two years on the Central Coast. The first festival was held in San Luis Obispo in 1999 and quickly became one of the premier guitar festivals in America. This year the event will be held at the Allan Hancock College Performing Arts Center Sept. 21-23.

"We will present 19 highly acclaimed artists performing in 14 separate events in three days. There will be 11 major concerts, three Masterclasses, an interesting lecture, dozens of guitar makers displaying their instruments, a guitar silent-auction, and the world famous Forderer Collection of Rare and Historic Guitars will be on display," said festival director Russ De Angelo.

La Guitarra California has a history of showcasing many women guitarists. The 2007 festival will open with "Women of Classical Guitar" with concerts by Martha Masters, Risa Carlson, and Ana Vidovic.

Other guitarists will include the great maestro Pepe Romero; Scott Tennant, founding member of the Los Angeles Guitar Quartet; the famous French guitarist and composer Roland Dyens; the Triada Trio, three brothers from Bulgaria; Marcos Diaz from Spain; and David Burgess, who is renowned for his Brazilian rhythms.

Other performers include The Chris Burton Jacome Flamenco Trio, featuring flamenco guitar and dance; local guitarist Tony Harmon performing a "Classical & Latin" concert with wellknown guitarist Ray Pannell; and flamenco drummer Johnny Sandoval.

All seating is reserved. Tickets are available at the Performing Arts Center box office; call (805) 922-8313. Visit www.laguitarracalifornia.com for more information.

### **AHC** students excel in transfer

Jackie Jackson, a 46-year-old college student and grandmother of two, transferred from Allan Hancock College to Cal Poly this year. She is among a consistent group of students who are seeing great success in their quest to transfer each year from Hancock to Cal Poly. In fact, the latest data from the state reports that for the eighth year in a row, Allan Hancock College students continued to enjoy higher transfer acceptance rates to Cal Poly than students from neighboring community colleges and the state in general. Seventyeight percent of Hancock students who applied to Cal Poly, SLO, in fall 2006 were accepted, as compared to 37 percent statewide. The transfer acceptance rate is determined by

looking at the number of students accepted versus the number who applied.

However, Allan Hancock College students choose more than Cal Poly as university transfer destinations. UCSB, Berkeley, San Jose State and California state universities such as Fresno, Northridge, Long Beach and Fullerton are other popular destinations.

Various universities offer Allan Hancock College students guaranteed transfer acceptance. They include UCSB, CSU Monterey Bay, UC Davis, CSU Northridge and more.

Contact the University Transfer Center at (805) 922-6966 ext. 3363.

#### iPod winner!

Responding to an online AHC survey netted first-year student Joe McDonough a new 30 gig iPod. McDonough, a St. Joseph High School grad, is exploring career options at Hancock. When contacted as the prize winner he said, "I didn't know anyone ever won these things." The survey attracted more than 1,000 responses and identified key interests of current and future students. The iPod was donated by Best Buy and the AHC Foundation.

#### Sparks fly at annual welding contest

More than 60 local high school students competed against each other this spring in the 10th annual Allan Hancock College High School Welding Competition. Local high schools competing in the contest were Righetti, Pioneer Valley, Santa Maria, Cuyama Valley, San Luis Obispo, and Morro Bay.

Cosponsored by the college and several industry partners, the contest awarded prizes worth more than \$12,000 to individual winners in six welding categories, and to the top schools amassing the most points.

The top school prize was awarded to Righetti High School.

Top individual winners were:

Metal Inert Gas Welding (MIG)— Beginning: Nikolas Benedetto, San Luis Obispo High School

Metal Inert Gas Welding (MIG)—
Advanced: Josh Sanchez, Righetti High
School

Gas (OXY) Welding—Beginning: Matt Davis, Righetti High School

Gas (OXY)—Advanced: Josh Woodin, Righetti High School

Shielded Metal Arc Welding (SMAW) or Stick Welding—Beginning: Josh Navarro, Righetti High School

Shielded Metal Arc Welding (SMAW) or Stick Welding—Advanced: Marko Berstecher, Righetti High School

## Wine program leader hits the vineyard running

Allan Hancock College's new viticulture/enology program coordinator,
Alfredo Koch, is designing new and
progressive classes that may change the
way enology students—as well as the
industry—think, at least when it comes
to growing grapes and making wine.

The Argentina-born wine expert is expanding the college's program with new classes in vineyard irrigation, weed management, and descriptive analysis, and he is also adding to the curriculum an organic and biodynamic winemaking class.

Koch has a broad, rich background in the grape growing industry, with experience in all viticultural and enological aspects of the business. He grew up in a winemaking family. His grandfather had vineyards and a winery east of Mendoza, where his father worked as the vineyard manager.

Koch also founded three vineyards and a winery in Argentina, where he grew Cabernet and Malbec grapes using organic production systems. His results were award-winning.

He earned his bachelor's degree in accounting and finance from

the National University of Cuyo in Mendoza and also has an MBA from the University of Pittsburgh.

He moved to the United States in 2001 and completed his M.S. in agriculture at Cal Poly, San Luis Obispo. Before Hancock, Koch studied and taught at UC Davis. He is currrently pursuing a doctrate there.

One of the new classes being developed will involve vineyard irrigation, a profession that prepares students for quick job opportunities, according to Koch, because specialists in this area are in demand and well-appreciated.

Also being developed, along with other classes, is Wine and Grape Analysis, another quick, job-entry class that involves lab analysis of grapes and wines.

"Specialists in this area are also needed in the industry to work in the wine cellar, performing wine analysis on the fruit prior to harvesting," Koch said. They also perform critical functions of the winemaking process such as running analysis on the sugar, oxygen, acidity, etc., for the wine.

"I want our program to offer a coherent, complete view of the industry, with useful classes that provide a convenient, quick and efficient way for students to get jobs quickly, to earn their associate degree or to transfer to a four-year program," he said. "The important thing is that students understand the key issues."

Since Koch's arrival at Allan Hancock College in spring 2007, he has become faculty advisor to the newlyformed Allan Hancock College Viticulture and Enology Club.

The club has guest speakers from the wine industry, and it is a way to meet and network with others in the industry and people who want to learn more about viticulture and enology, he said. The club coordinates winery tours and vineyard events throughout the year.

"The Hancock program has huge potential," he said. "We have a vine-yard, equipment—we just need to increase awareness. The industry is so important in California. We are the main winemaking state!"

#### Fall 2007 viticulture/ enology courses:

- Intro to Winemaking/ Enology (AGBUS 101)
  - Intro to Viticulture (AGBUS 102)
- Sensory Evaluation of Wine (AGBUS 103)
- Wine Marketing & Sales (AGBUS 105)
- Viticulture Operations 1 (AGBUS 120) and 4 (AGBUS 140)
- Soils & Plant Nutrition (AGBUS 125)
- Vineyard Irrigation (AGBUS 179)
- Pairing Wine & Food (AGBUS 301)
- Advanced Pairing Wine & Food (AGBUS 302)
- Epicurean Wine and Food (AGBUS 303)
- Pairing Wines & Foods of Provence (AGBUS 305)
- Pairing Wines & Foods of Tuscany (AGBUS 306)
  - Basic Winemaking 1 (AGBUS 310)
  - Home Winemaking (AGBUS 340)

See page 57 of the fall Schedule.

## Sports wrap up

Allan Hancock College Bulldog **football** went 5-2 in conference play. Seventeen members of the team received all-conference recognition, including sophomore center Clayton Rios, freshman running back Andre Cirino, freshman guard Tau Sudlow, freshman linebacker William Roundtree, sophomore defensive tackle Ryan Roberts and freshman safety Neil Tidwell. Sophomore quarterback Jon Dally,

who earned All-WSC second team honors with a 159.1 pass-efficiency rating, was the team MVP.

Women's head soccer coach Cherif Maghni was named the Western State Conference Northern Division Coach of the Year. In his fifth year, Maghni led AHC to its best season in years. Hancock's strength was a rock-solid defense that was led by All-WSC performers Laura Beard and Mayra Gonzalez. In men's soccer, five players earned All-WSC recognition, including freshman forward Juan Leon, who finished sixth in the conference in scoring.

In **cross country**, AHC featured one of the most accomplished runners in the state in

sophomore Jesus Solis, who finished 12th among more than 200 runners at the state championship meet. The team produced two additional qualifiers to the state meet in Pedro Pineda and Stephanie Krouse.

In women's **golf**, sophomore Leticia Halas qualified for the State Southern Regional following a strong performance in the WSC regular season.

The Bulldog men's **basketball** team closed out the season with a thrilling 64-63 win over L.A. Pierce. Sophomore guard Anthony Madden earned All-WSC North first team honors. On the women's side, sophomore winger Brittoni DeWitt led AHC in every offensive category, averaging 18.6 points, 11.8 rebounds and 2.9 assists per game.

**Track and field** freshman Blas Uzeta broke a 14-year-old school record in the hammer throw (131-1) and won the WSC championship in the shot put. The Arroyo Grande High School graduate went on to finish third in the shot put at the state finals.

Third-year head **softball** coach Angeli Guerrero was named Co-Divisional Coach of the Year. The team, made up entirely of freshmen, had five players earn second-team all-conference honors, including first baseman Lily Ruiz, infielder Sophia Beltran and freshman utility player Antoinette Hernandez.

AHC **baseball** team first baseman David Van Ostrand led a list of seven Bulldogs who earned all-conference recognition. Van Ostrand, who accepted a scholarship to play at Cal Poly next year, set school records for hits in a season (74), season batting average (.430) and hits in a career (128). Also earning All-WSC first-team honors was outfielder Jimmy Dodos, while catcher Jeff Farnham, third baseman Thad Henderson, utility player Dane McLaughlin and pitcher David Mittelberger earned second-team recognition.

Six members of coach Ginny Barnett's AHC women's **tennis** team earned All-WSC recognition. Headlining the Bulldog season was freshman Elysha McLain, selected first-team single, and secondteam doubles with partner Bernisse Becerra. Men's tennis second-year coach Jeff Spalinger was named Western State Conference Co-Coach of the Year.

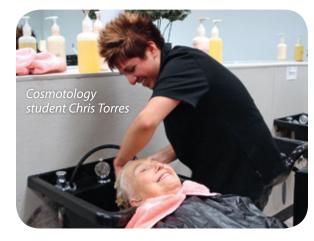

#### **Cosmetology training through Hancock**

Allan Hancock College students are training at local beauty schools as they prepare for careers in cosmetology as hairdressers, barbers, nail technicians, skin-care specialists, aromatherapists, massage therapists, makeup artists, personal shoppers and more. According to industry data, beginning cosmetologists can earn \$35,000 a year, and once they have an established clientele they can earn \$50,000 or more.

Hancock's 42-week cosmetology program requires 1,600 hours of classroom theory and lab training that prepares and qualifies students to become licensed beauticians. The manicuring program requires 400 hours of training. All training is hands-on.

Through a special contract between Allan Hancock College and area beauty colleges, students can train at one of three schools: Santa Maria Beauty College, San Luis Obispo Beauty College, and the Institute of Beauty Culture in Pismo Beach. The registration fee is \$544 for the course, plus a kit that can be purchased at the beauty school for between \$500 and \$675. This cost compares to about \$7,000 for private students at the same locations.

Classes begin every six weeks throughout the year. The next session of classes begins Aug. 28.

For more information, contact the Allan Hancock College Office of Academic Affairs at (805) 922-6966 ext. 3292 and ask for Kathy.

## 21 percent increase in grads

A record 909 students earned 1,276 associate in arts or science degrees during the 2006-07 academic year. These degrees—938 associate in arts degrees, and 338 associate in science degrees—were earned in 66 different subject areas. This year's number of graduates was a 21.5 percent increase over last year, and the number of degrees earned increased 25.5 percent.

Graduates ranged from 17 to 69 years old and represented a wide array of experience, perspective, and diversity.

The 86th annual commencement exercise featured State Superintendent of Public Instruction Jack O'Connell addressing the nearly 300 graduates who donned caps and gowns and marched onto the Santa Maria campus Commons area. A crowd of more than 2,000 family members and friends attended the ceremony.

## Student scholarship awards surpass \$325,000

The Allan Hancock College Foundation awarded 286 scholarships totaling more than \$325,000 to 214 students at its annual scholarship banquet. A crowd of about 750 students, relatives, friends, donors, and community members attended the college's 38th annual event. Scholarships up to \$5,000 each were awarded to students from all parts of the Central Coast, from Solvang to Arroyo Grande.

The evening started with a Santa Maria-style barbeque prepared by Santa Maria Elks Lodge #1538. In a departure from previous banquets, donors and recipients were seated together during the dinner allowing time for fellowship

and sharing. Joe Dana, an Allan Hancock College graduate, previous scholarship recipient, and principal at Dunlap Elementary School in Orcutt, delivered the keynote address. Dana was recognized in 2000 as a Distinguished Alumnus as part of the college's 80th anniversary celebration.

The theme for the annual scholarship event was "Community Supporting Community." A total of 140 donors from the community awarded scholarships to both returning and transferring students through the Allan Hancock College Foundation scholarship program.

The top awardee was Manuel Velasco of Los Alamos, who received the prestigious Marian Hancock Scholarship. The scholarship is named for Marian Hancock, the wife of Capt. G. Allan Hancock, for whom the college is named. During her life, Mrs. Hancock was a staunch supporter of the college and the scholarship program.

This award is significant in that it represents the scholarship committee's choice for most outstanding and deserving student of the academic year. When this scholarship was established, Marian Hancock asked that it be bestowed on a deserving student who has demonstrated a commitment to continuing his or her education, and who has shown great promise and dedication.

Among other scholarship awards, the Joe Dana Scholarship was awarded to Sandra Fischer of Nipomo. A surprise to Dana, this scholarship was awarded to honor and thank him for his participation in this year's event. Recipients of The Valley Foundation scholarships were Felipa A. Velasco of Los Alamos and Luz A. Zepeda of Solvang. A new donor, the Lompoc Business Women's Network, awarded their first scholarship to Michelle L. Newcomb of Lompoc. Another new donor, the William Holman Family Scholarship, awarded their first scholarship to David M. Van Ostrand. This scholarship was set up by the late Margaret Holman, a founding AHC foundation board member.

## Attend Cal State Bakersfield at Allan Hancock College

Fall 2007 California State University, Bakersfield (CSUB), business administration degree classes at Allan Hancock College begin Sept. 10.

A partnership between Allan Hancock College and CSUB allows students to complete the bachelor's degree program on the Allan Hancock College Santa Maria campus. The first classes in this partnership started in September 2006.

In addition to the business administration degree offered by CSUB, the Allan Hancock College University Partners Bachelor Degree Program now spans from psychology and nursing to technical management. In fact, there are currently 18 different bachelor's degrees students can complete locally through the Allan Hancock College University Partners Program with such universities as UCSB, Embry-Riddle Aeronautical University, Cal State Long Beach and more.

For information about the CSUB program, call the Allan Hancock College University Transfer Center at (805) 922-6966 ext. 3363.

### Longtime employees retire

Totaling 241 years of combined service to the college, nine Allan Hancock College employees retired this year. Pictured with AHC Superintendent/President Dr. José M. Ortiz, center, are, from left, David Edwards, plant services director, 33 years; Lenora Watson, computer programmer, 33 years; Ruth Adams, Children's Center lead teacher, 31 years; and Jim West, dean, counseling and matriculation,

17 years. Retirees not pictured: Robert Leeds, automotive technology instructor, 38 years; Virginia Domingues, human resources technical services coordinator, 33 years; Norma Lenihan, financial aid accounting technician, 21 years; Patti Grossi, administrative secretary II, 20 years; and Donna VanderMeulen, administrative secretary III, 15 years.

## New board members

#### Maggi Daane

Maggi retired in early 2006 following a 25-year career with Lockheed Martin Corporation, in which she served as public relations/protocol officer representing Lockheed Martin's Vandenberg Launch Operations. While with Lockheed Martin, she also administered corporation grants and planned and implemented special events. A resident of Santa Maria for the past 28 years, Maggi enjoys travel, golf, reading, gardening and, especially, spending time with her granddaughter. Her volunteer activities on behalf of the Santa Maria Valley Industry Education Council, the Santa Maria Valley Chamber of Commerce, the Teacher's Network, Lockheed Martin Central Coast Community Relations Council, and now, the Allan Hancock College Foundation, continue to fill her need to serve her community.

#### **Judy Frost**

Judy retired in 2007 as managing director of PCPA Theaterfest, where she had worked for 16 years. She described her role with PCPA as "the person responsible for everything that is not artistic or creative."

After working for Knott's Berry Farm as internal audit and accounting manager, she left the field

of entertainment for the high-tech electronics industry. She was a division controller for Computer Automation and later Computer Systems Company, a division of McDonnell Douglas. In 1984, Judy earned a master of business administration in management degree from Pepperdine University. She served as a steering committee member of the Santa Barbara Foundation Santa Maria Affiliate from 1996 through 2003 and is currently serving a three-year term as a

#### John Martino

John is the director of hotel operations for the Chumash Casino Resort. A 30-year veteran of the luxury hospitality industry, he previously worked as general manager of the Santa Ynez Inn, and served as resident manager of the Alisal Guest Ranch in Solvang. A native of San Jose, California, Martino attended San Jose City College and majored in business administration. He is a founding member of the Santa Ynez Valley chapter of the Chaine Des Rotisseurs gourmet organization. Martino is a longtime member of the Santa Ynez Valley Presbyterian Church, a board member of the Santa Barbara Conference & Visitors Bureau and Film Commission, and a past board member of the Santa Ynez Valley Historical Society.

### President's circle members "charter" a new course

Quoting President Woodrow Wilson, Allan Hancock College Foundation Board President Ron Thatcher invited a roomful of invited guests to "enrich the world...with greater vision, and with a finer spirit of hope and achievement" by becoming charter members of a newly formed President's Circle. With an annual contribution ranging from \$1,000 to \$2,500, 78 individuals and local businesses have chosen that course. During this first year, charter members have enjoyed an evening at PCPA, received personal invitations to special college events, and enjoyed the first ever President's Circle Annual Luncheon with featured keynote speaker Scott Lay, president of the California Community College League. While enjoying the company of other likeminded President's Circle members is one benefit of membership, the underlying purpose is to raise new dollars that the foundation and college can direct to programs and areas of greatest need. Charter members will receive special distinction on a President's Circle Honor Roll plaque that will be placed on permanent display.

Dr. José M. Ortiz, superintendent/president of the college, announced the first projects to be funded with President's Circle proceeds include supporting the purchase/installation of a wireless information network inside the Student Center on the Santa Maria campus and funding to create a textbook rental program. In announcing the projects, Ortiz noted that, "These projects will enhance the learning environment and help to remove economic barriers, both important to building student success."

There is still time to join the President's Circle as a charter member. Make a difference today and for tomorrow. Contact the foundation office for more information.

The Allan Hancock College Foundation supports all aspects of the college. Members of the foundation staff are ready to help you find answers to your questions on how your gifts can support our students, faculty, and programs. Please contact us to learn more about giving to Allan Hancock College.

Email: ahcfoundation@hancockcollege.edu Foundation Office: 936 South College Drive, P.O. Box 5170, Santa Maria, CA 93456-5170

### Register now for fall 2007

#### Who chooses Hancock?

- Students who want to transfer to UCSB, UC Berkeley, Fresno State, and other fouryear universities. As a Hancock student, you enjoy transfer guarantees with many universities.
- People who want to get on a career fast track without a four-year degree. Computer animation, automotive technology, nursing, electronics, welding, business... the list goes on and on. Hancock has something for every career interest.
- Employees who want to move up in their current career or move on to a new one. The key to a successful future awaits at Allan Hancock College. Schedule your college classes around your work schedule. Take evening, weekend, even online classes.

If you plan to earn a bachelor's degree, start at Allan Hancock College. Call the University Transfer Center at 922-6966 ext. 3363.

Schedules at all college locations or online at www.hancockcollege.edu

#### **Registration how-to**

WebReg for fall credit classes continues through Thursday, Aug. 9.

WebReg online registration is available from 9 a.m. to 9 p.m. daily. It may be accessed from any computer linked to the Internet by clicking the WebReg button on the college's homepage at www.hancockcollege.edu.

Registration sites are the Admissions & Records office in building A on the Santa Maria campus, and the administrative offices at the Lompoc Valley Center; the Vandenberg AFB Center; and the Solvang Center.

For those who are registering for distance learning classes only, registration via fax or U.S. mail is also available starting Aug. 10-30 for semesterlength classes, Aug. 10–23 for Fast Track Term 1 classes, and Aug. 22–Oct. 24 for Fast Track Term 2 classes. For details, see page 41 of the credit schedule on the AHC Web site at www.hancockcollege.edu (click Class Schedule/Catalog).

Fall schedules were sent to area homes in May. Additional schedules may be purchased for 50 cents at any college location. The schedule is also posted on the Web site (click "Class Schedule/Catalog").

Enrollment fees are \$20 per unit for all California residents (\$60 for a typical three-unit class; other minimal fees may apply).

Financial aid is available to help students pay fees and related college expenses such as books, supplies and living expenses. Applications and information are available in the Financial Aid office. For more financial aid information, call (805) 922-6966 or toll free 1-866-DIAL AHC (342-5242) ext. 3200.
