

Allan Hancock College

Viticulture & Enology club

Something for Everyone!

The Allan Hancock College Viticulture and Enology Club supports students who want to learn more about wine appreciation and grape growing. As a club we coordinate winery tours and vineyard events throughout the year. This is an excellent opportunity for members to help maintain vines during the growing season, harvest fruit and oversee the winemaking process from start to finish.

This is an excellent opportunity for members to help maintain vines during the growing season, harvest fruit and oversee the winemaking process from start to finish.

We encourage and welcome people to be creative, innovative and pursue interests they have regarding wine and vines.

The club is open to all students and we welcome participation from all college programs. The AHCVE Club is a network between people who want to learn more about viticulture and enology and those who can help educate others on the subject as well as a fun opportunity to take part in an occasional tour or vineyard work day.
