Overview of 6-year cycle

Every year, a program will answer annual prompts and core topic prompts. There are 5 core topics, leaving one year to catch-up or update previous years. The annual prompts address (see appendix C for prompts):

1. Program mission
2. Significant program changes
3. Learning outcomes assessment
4. 2-year program maps
5. Staffing changes
6. Program successes
7. CTE 2-year labor market review (CTE Programs only)

The core topics that a program would choose from each year are:

1. Innovative Scheduling
2. Curriculum and Teaching Design
3. Education and Industry Partnerships
4. Enrollment Trends and Efficiency
5. Academic Services and Support

All core topics need to be addressed by the end of a 6-year cycle. This would mean one core topic per year, plus one catch-up year.

The core topic prompts address (see appendix C for prompts):

- Data used
- Challenges
- Plans for changes or innovation
- Measures for changes
- Resources needed

The following steps are for completing annual program planning. These steps should be spread throughout the year.

Step 1: Choose a core topic to analyze for the year

Core topics:

Innovative Scheduling embraces mapping, scheduling, and student outcomes. This focus includes a review of modalities, times, days, and sequence of courses. It supports areas of interest. It is based on student success, retention, and completion/graduation data. Sample activities include the following:

Possible topics:

- Review scheduling practices – program map alignment, successes, and challenges.
- Collaborate with guided pathways success teams to assess scheduling conflicts and bottlenecks within and across disciplines that impact student completion.

- Assess mix of teaching modalities – mornings-afternoons-evenings; weekends; face-to-face, hybrid, and distance learning. NOTE: Hybrid is the combined use of various teaching modalities.
- Address scheduling conflicts or dependencies across disciplines or general education areas.
- Student access – cultivate majors, support cohorts and interdisciplinary connections.
- Review units and time to course and program completion.

Curriculum and Teaching Design analyzes currency of modalities, articulation, and industry needs. It includes content review, currency and relevance, accessibility, and equitable practices. Sample activities include the following:

Possible topics:

- Review courses and programs through an equity lens to assess access and success.
- (Course review) Review prerequisites, corequisites, and advisories, and limitations on enrollment, modality, articulation and transfer, and units and time to completion. Is there a disproportionate impact within certain demographic groups? impact within certain demographic groups.
- Assess teaching practices, equipment, supplies, and materials, and technology (like homework, syllabus, text, videos, classroom technology, etc.)
- Assess and integrate program learning outcomes (PLO).

Education and Industry Partnerships – review relationships with four-year institutions, including preparation for transfer and changes in major requirements. Assess labor market needs and outcomes with a focus on the needs of employers and regional partners. Sample activities include the following:

Possible topics:

- Review academic transfers and associate degree for transfer alignments.
- Review articulation agreements.
- Review C-ID (course identification system) modifications.
- Integrate advisory committee recommendations and regional training needs.
- Review career and technical education (CTE) labor market information and trends.
- Explore collaborations, internships and externships, and cooperative work experience opportunities.
- CTE unit completion goals in the Student-Centered Funding Formula and CCCCO Vision for Success.

Enrollment Trends and Efficiency – look for areas of growth or decline, relationship to the college and similar programs, and trends (e.g., head count, enrollment and full-time equivalents for students and full-time equivalents faculty). Sample activities include the following:

Possible topics:

- Review FTES, headcount, and enrollment trends disaggregated by population groups.
- Assess trends in productivity.
- Review retention and success rates by modality and disaggregated by population groups.
- Analyze through put of students from entry to completion and assess time to completion and disproportionate impact.
- Collaborate with guided pathways success teams to determine if programmatic barriers exist.
- Establish program goals for success rates.

Academic Services and Support – assess and improve relationship with tutorial services, library, counseling, learning assistance program (LAP), etc. and evaluate co-curricular support courses.

Possible topics:

- Collaborate with guided pathways student success team members to ensure institutional barriers are mitigated.
- Review and summarize student support options.
- Implement student surveys and evaluate results
- Assess co-curricular support programs and services.

Step 2: Choose data to use in analysis

Data choices will depend on the program and core topic chosen. The table below provides possible data sources depending on the core topic. If you need to conduct a survey, contact IE to create a one.

Core Topic	Possible Data
Innovative Scheduling	<ul style="list-style-type: none"> • Scheduling data • Scheduling heat map • Schedule analysis app • Faculty/staff input • Student survey on class availability
Curriculum and Teaching Design	<ul style="list-style-type: none"> • Program enrollments • Program equity dashboard • Faculty survey to assess course needs • Units to time completion by program
Education and Industry Partnerships	<ul style="list-style-type: none"> • Program degree data • Advisory committee survey • Market and labor data
Enrollment Trends and Efficiency	<ul style="list-style-type: none"> • Program data • Guided pathways success team
Academic Services and Support	<ul style="list-style-type: none"> • Student surveys

Step 3: Use the discussion templates to gather program faculty feedback

If needed, download the core topic discussion template. Discussion templates can be found on the Program Review website here: <https://www.hancockcollege.edu/ie/>. The templates have the following prompts on them and can be used as a tool for gathering feedback from program faculty. How feedback is gathered will depend on the program. Ideally, a department meeting could be used for this. This discussion could be done with the Guided Pathways success team. Appendix A is a possible meeting agenda.

Please answer these prompts: (See Appendix E)

1. Yearly Updates

- a. Has your program mission or primary function changed in the last year?
- b. Were there any noteworthy changes to the program over the past year? (e.g., new courses, degrees, certificates, articulation agreements)

- c. Learning Outcomes Assessment <https://www.hancockcollege.edu/ie/data.php>
 - i. Please summarize key results from this year's assessment.
 - ii. Please summarize your reflections, analysis, and interpretation of the learning outcome assessment and data.
 - iii. Please summarize recommendations and/or accolades that were made within the program/department.
 - iv. Please review and attach any *changes* to planning documentation, including PLO rubrics, associations, and cycles planning.
 - d. Is your two-year program map in place and were there any challenges maintaining the planned schedule? **(Guided Pathways)**
 - e. Were there any staffing changes?
 - f. What were your program successes in the last year?
 - g. CTE two-year review of labor market data and pre-requisite review
 - i. Does the program meet documented labor market demand?
 - ii. How does the program address need that are not met by similar programs?
 - iii. Does the employment, completion, and success data of students indicate program effectiveness and vitality? Please, explain.
 - iv. Have the recommendations from the previous report been addressed?
- 2. Core Topics**
- a. What data were analyzed and what were the main conclusions?
 - b. Based on the data analysis and looking through a lens of equity, what do you perceive as *challenges* with student success or access in your area of focus?
 - c. What are your plans for change or *innovation*? (What program planning initiatives will be created? Appendix B gives an example of an objective and how it fits with program planning.)
 - d. How will you *measure* the results of your plans to determine if they are successful?
 - e. Based on your data analysis and inquiry, what resources are needed for your program?
 - f. Was this document reviewed by peers and/or advisory board teams? And if yes, summarize the feedback.

Step 4: Gather feedback from peers and/or advisory board teams

After gathering feedback from program faculty, you would use the same template to gather feedback from peers and/or advisory team. Again, this could be done in the same department meeting. Refer to Appendix A for sample agenda.

Step 5: Input responses into the online software

Designate one person to input prompt feedback into the online software. The person responsible will vary from program to program. The person does not need to be faculty but will need to familiarize themselves with the software. Below are guides on how to use the software:

- [Program planning overview document](#)
- [Detailed guide to program planning software](#)
- [Abridged guide to program planning software](#)
- [Training videos](#)

Step 6: Review and update program planning initiatives (action plans) online

After inputting the narrative for the prompts, past program planning initiatives (if there are any) would need to be updated. For a guide on how to review, edit, and create program planning initiatives for a program, you can use the guides and training videos below.

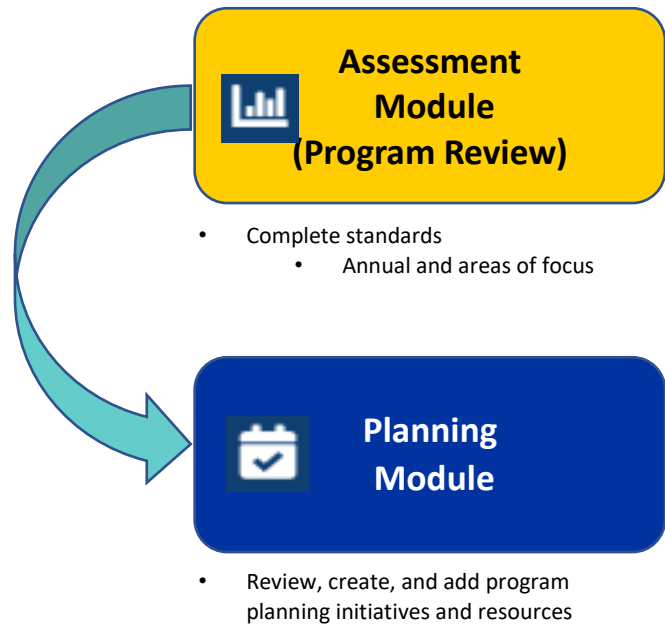

- [Program planning overview document](#)
- [Detailed guide to program planning software](#)
- [Training videos](#)

Program planning is completed in two modules: Assessment, which houses the program review standards, and Planning which is used for goal/objective setting and resource requests and budgeting.

Part 1- Assessment Module: Complete prompts in the *Program Review* section in the Assessment Module.

There are both annual questions and areas of focus. These prompts should be answered with input from key stakeholders. You can use the sample questions in the guided dialog (See below) to answer questions.

Part 2- Planning Module: Strategic planning is centered around the planning module. Program planning initiatives and resource requests reside here. To strategically plan your program review, follow these steps:

Step 7: Create new program planning initiatives and resource requests

After updating program planning initiatives, program planning initiatives created while filling out prompts need to be created. For details on how to create new program planning initiatives, use the guides below.

- [Program planning overview document](#)
- [Detailed guide to program planning software](#)
- [Training videos](#)

Program planning tips:

- Program planning is a fluid process with needs that vary from program to program. Many of the process details, like who is responsible for interacting with the software, will change from program to program.
- Embed the planning process into an already established program/department meetings. Add planning to regular meeting agendas. Discuss progress regularly.
- Write program planning initiatives that are attainable and measurable.

- When choosing what to discuss about a topic, pick items that are salient to program members.
- Do not attempt to address everything in one go. Planning allows you to go back and revise.
- Ask for help early.
- Begin planning discussions at the beginning of the academic year. Gather input from faculty on core topics over the year so that it can be a discussion topic.

Next Meeting:

Current/Action Items

1. Choose Program Planning Core Topic
 - a. Innovative Scheduling
 - b. Curriculum and Teaching Design
 - c. Education and Industry Partnerships
 - d. Enrollment Trends and Efficiency
 - e. Academic Services and Support

2. Choose data

Information

3. Breakout faculty into programs with Core Topic Templates (20)
IE Website: <https://www.hancockcollege.edu/ie/data.php>
Here you can find pages for internal and external data, program review guides/training/documents/templates
 - a. Assign a notetaker to record discussion on template
 - b. Discuss prompts and look at data. Record discussions.
 - c.
4. Return to group and share-out responses for peer feedback (20)
 - a. Record feedback on template

Mission Statement

Allan Hancock College provides quality educational opportunities that enhance student learning and the creative, intellectual, cultural and economic vitality of our diverse community.

Appendix B- Sample mission, goals, and program planning initiatives

Sample Mission, Goals, and Program planning initiatives

	Definition	Sample
Mission	The values and philosophy of the program, a vision of what the program is supposed to do.	The mission of the English program is to develop students' reading and writing skills by providing opportunities for critical thinking, research, and analysis. Moreover, the program affirms its promotion of equity and diversity among the community by providing opportunities and outreach to eradicate illiteracy.
Goals	The general aims or purposes of the program and its curriculum. Effective goals are broadly stated, meaningful, achievable and can lead to assessable outcomes.	Increase literacy and writing competency within the students and college community.
Program planning initiatives	Program planning initiatives are specific activities that a program would need to complete in order to achieve goals and mission.	Develop community literacy program for historically underrepresented populations.
Actions/ Resource Request	These are the specific actions/resources needed in order to complete an objective.	Gather volunteers from students and teachers to tutor at community center. Budget: \$500 for supplies.

Appendix C- Prompts

Prompts:

1. Yearly Updates

- a. Has your program mission or primary function changed in the last year?
- b. Were there any noteworthy changes to the program over the past year? (e.g., new courses, degrees, certificates, articulation agreements)
- c. Learning Outcomes Assessment
 - i. Please summarize key results from this cycle's assessment.
 - ii. Please summarize your reflections, analysis, and interpretation of the learning outcome assessment and data.
 - iii. Please summarize recommendations and/or accolades that were made within the program/department.
- d. Is your two-year program map in place and were there any challenges maintaining the planned schedule?
- e. Were there any staffing changes?
- f. What were your program successes in the last year?
- g. CTE two-year review of labor market data and pre-requisite review
 - i. Does the program meet documented labor market demand?
 - ii. How does the program address need that are not met by similar programs?
 - iii. Does the employment, completion, and success data of students indicate program effectiveness and vitality? Please, explain.
 - iv. Have the recommendations from the previous report been addressed?

2. Core Topics

- a. What data were analyzed and what were the main conclusions?
- b. Based on the data analysis and looking through a lens of equity, what do you perceive as *challenges* with student success or access in your area of focus?
- c. What are your plans for change or *innovation*? (What program planning initiatives will be created? Appendix B gives an example of an objective and how it fits with program planning.)
- d. How will you *measure* the results of your plans to determine if they are successful?
- e. Based on your data analysis and inquiry, what resources are needed for your program?

Appendix D- Terminology

- **Program planning:** This is the planning processes that would reviews and forward plan programs within a 6-year cycle
- **Mission:** The statement/summary of directions and priorities of a program
- **Goals:** Broad statements that specify the directions and priorities of a program
- **Program planning initiatives:** Former “Action Plans” from past program review processes. These are the specific and measurable statements that a program makes to track progress of goals and mission. These are regularly updated every year.
- **Actions/resource requests:** These are the things that must happen in order for a program planning initiative to come to fruition. These can also be resource requests that are needed to complete a program planning initiative.
- **Yearly updates:** These are the yearly prompts to which a program would respond.
- **Core topics:** These are the main topics that need to be covered in a program planning cycle.

Appendix E- Yearly Updates Sample Responses

1. Yearly Updates

a. Has your program mission or primary function changed in the last year?

The mission of the English program is to develop students' reading and writing skills by providing opportunities for critical thinking, research, and analysis. Moreover, the program affirms its promotion of equity and diversity among the community by providing opportunities and outreach to eradicate illiteracy.

Our mission has been updated to better promote equity. Analysis of our previous planning indicated that to make equity a priority within the program, we needed to embed equity in every aspect of the program, beginning with the mission.

b. Were there any noteworthy changes to the program over the past year? (e.g., new courses, degrees, certificates, articulation agreements)

A planning initiative from the past program review indicated that we needed to diversify the courses in the literature program to include more curriculum that features world cultures. Therefore, the World Cultures Literature course was added a pre-requisite for the transfer degree.

c. Learning Outcomes Assessment

i. Please summarize key results from this cycle's assessment.

- *Met benchmark of 70% by 75%. Went over the benchmark by 5%*
- *More students met rather than exceeded by 25%*
- *For PLO 2, Hispanic students were under the benchmark at only 25%, and White at 50%.*
- *Students are over the benchmark by 15%.*
- *Both Genders exceeded the benchmark for PLO 2.*
- *Engl 214 and Engl 227 are not meeting the standard.*
- *Hispanic students do not meet standards in all but 2 courses.*
- *White students meet standards in more courses than all other ethnicities.*
- *Males perform better in more courses than females.*
- *ENGL 214 and 227 are below standards in all demographics.*
- *Introduced levels are all below standards across demographics.*

ii. Please summarize your reflections, analysis, and interpretation of the learning outcome assessment and data.

According to faculty input, the curriculum for ENGL 214 and 227 is not at the correct level for new students. There has been an increase in students that write in English as a second language. Also, the material that is used to teach the writing is outdated and not easy to access for students, especially our Spanish speaking students. However, while the courses are difficult, students in the upper-level courses and course associations do meet the benchmark. This is because many of the students in the introduced in the beginning courses fail and do not continue to the later courses.

iii. Please summarize recommendations and/or accolades that were made within the program/department.

- 1. Research updated materials for students that speak English as a secondary language. This should be an online resource that can translate difficult passages.*
- 2. Support through tutoring will be offered to students that exhibit signs of failing through the new at-risk student notification system.*
- 3. Curriculum of 214 and 227 will be examined and improved to better fit students that may need more support from bilingual instructors.*

iv. Please review and attach planning documentation, including any PLO rubrics, associations, and cycles planning.

(Sample Planning Documents Can be found here:

<https://www.hancockcollege.edu/ie/learningoutcomes.php>)

d. Is your two-year program map in place and were there any challenges maintaining the planned schedule?

e. Were there any staffing changes?

A part-time instructor was added to cover the new World Culture Courses. We now have 5 full time and 7 part-time instructors.

f. What were your program successes in the last year?

- Cultural book fair
- Poetry Slam nights every Friday with increased attendance
- Book author series started where local authors come to campus and answer questions from students.

g. CTE two-year review of labor market data and pre-requisite review

- i. Does the program meet documented labor market demand?
- ii. How does the program address need that are not met by similar programs?
- iii. Does the employment, completion, and success data of students indicate program effectiveness and vitality? Please, explain.
- iv. Have the recommendations from the previous report been addressed?
