

# EARN A CAL POLY DEGREE AT HANCOCK COLLEGE

**LEARN MORE  
ON OUR WEBSITE**

## CAL POLY BACHELOR'S PATHWAY AT HANCOCK IN SOCIOLOGY

The new Cal Poly Bachelor's Pathway in Sociology at Allan Hancock College is an opportunity for transfer students to earn a Cal Poly Bachelor of Arts in Sociology degree without commuting to San Luis Obispo. All required coursework will be available at the Allan Hancock College campus in Santa Maria and the class schedule is designed for students balancing their studies with other responsibilities.

Students in the Cal Poly Bachelor's Pathway at Hancock in Sociology will have full access to Cal Poly services, including library resources, healthcare, advising, career support, and more. Many of these services are available virtually. Students in the Bachelor's Pathway Programs are also welcome to come to the Cal Poly campus to access resources and attend events including Week of Welcome, club meetings, sports games, concerts, and theater arts performances. Pathway Program students also have access to select resources at Allan Hancock College.

## GETTING STARTED IS EASY

- 1** Be on track to earn the Sociology Associate in Arts for Transfer Degree (ADT).
- 2** Apply for the Cal Poly Bachelor's Pathway at Hancock in Sociology during your final year of community college.
- 3** If admitted, take two years of Cal Poly Sociology and General Education courses at Allan Hancock College.
- 4** Graduate with a Cal Poly Bachelor of Arts degree in Sociology and pursue your career!

## MAKE AN IMPACT WITH A SOCIOLOGY DEGREE

A Cal Poly Sociology Degree prepares students for careers in a range of fields including criminal justice, law, social services, government, complex organizations, and education.

The Sociology Program will help you understand and appreciate the diversity of human experience, how social contexts influence individual behavior, and how race, class, gender, and other social categories impact groups and individuals within and beyond the United States.

Required courses provide training in research design and data analysis, teach you how to understand individual circumstances in the context of broader local, national, and global forces, and provide high-impact Learn by Doing experiences with real-world applications, including Internships and the capstone Senior Project.
