**Total active grants includes federal, state and private multi-year funding still remaining.

Grants Overview

AHC has grants supporting 8 different areas on campus:

Looking Ahead

Due to declining opportunities of federal funding, the grants department updated their approach and is currently prioritizing funds from state and private foundations. In partnership with the AHC Foundation, the Department of Institutional Grants is developing relationships with Metallica Scholars (All Within My Hands Foundation), Towbes Foundation, Dana Foundation, and will continue to build bridges with new foundation partners as a departmental goal. The grants department will further its outreach to potential funders in order to continue supporting students and the college.
