special pull-out section  
Registration and class information for fall credit classes

● For the second year in a row, or the second year in a row, more Allan Hancock College science students have been chosen to participate in the prestigious UC Santa Barbara science research program than from any other California community college. From left to right: María Solís, Manuel Muñoz, José Ortiz Casillas, Elizabeth Matthews, and Rey Honrada.

## Top students head to UCSB internships

For the second year in a row, more Allan Hancock College science students have been chosen to participate in the prestigious UC Santa Barbara science

research program than from any other California community college. Seven of 16 students who were accepted for the summer's NanoSystems Science, Engineering and Technology program are from AHC.

The group includes: María Solís of Guadalupe, a chemical engineering major; Elizabeth Matthews of Nipomo, biology; Manuel Muñoz of Santa Maria, electrical engineering; Jennifer Oehler and José Ortiz, both of Santa Maria and both biology majors; Victor Morales of Lompoc, biology, and David Statti of Santa Maria, chemistry.

Rey Honrada of Santa Maria, a biochemistry major, was accepted to UCSB's National Nanofabrication Users Network internship program, a parallel program.

Interns' research will cover a broad scope of disciplines including chemistry, physics, biology, engineering, materials science, and computer science, with research centering on finding new ways to integrate nanometer-scale

(sub-microscopic size) building blocks into new materials.

Interns work directly with UCSB science professors to gain first-hand experience in scientific investigation in a collaborative research environment.

## AHC students transfer in record numbers

The acceptance rates for Allan Hancock College students transferring to four-year universities have climbed, in some instances dramatically. For example, the college's office of institutional research reports:

- The average acceptance rate for Allan Hancock College students to Cal Poly is 60 percent greater than the total rate for all Cal Poly transfer applicants in the past five years.
- The average acceptance rate of Allan Hancock College students to UC Santa Barbara is 18 percent greater than all transfer applicants.
- Transfers by Allan Hancock

## New environmental studies program starts this fall

In the last decade, there were more than 1.2 million jobs in the U.S. for environmental studies graduates. In response, Allan Hancock College has developed a new environmental studies degree, starting this fall.

Environmental studies "will provide a strong scientific background in how the biological and physical earth works, and a strong social sciences background in how humans act and interact with the planet," said Jeffrey Meyer, science instructor.

Students can earn an A.A. degree in environmental studies with options in social sciences or natural sciences.

Career options include environmental engineering, natural resources management, environmental chemistry, science education, environmental geology, industrial environmental scientist, environmental journalism, environmental impact assessment, en-

● AHC science instructor Jeffrey Meyer discusses the geological history of the cliffs at Pismo Beach.

vironmental law, parks management, environmental planner, park naturalist, urban and regional planning, forestry, conservation corps director, and waste management specialist, among others.

This fall, two core courses in the major will be offered: Environmental Studies 101/Biology 120: Humans and the Environment, and Environmental Studies 102: Environmental Geology.

Call counseling at 922-6966 ext. 3293. Meyer can be reached at ext. 3762 or at [jmeyer@hancock.cc.ca.us](mailto:jmeyer@hancock.cc.ca.us).

# College honors 82nd graduating class

The college's 82nd annual commencement celebrated 794 students who earned 932 associate in arts or science degrees during the 2002-2003 academic year. These degrees were earned in 42 different subject areas.

Of the 794 graduates, 164 graduated with honors for maintaining a GPA of 3.5 or above. Eight of those students maintained a GPA of 4.0 and graduated with high honors. They are Jose Mierzejewski, Lisa Stanford and Lauren Worsham of Santa Maria; Hristina Bojadzieva, Jeremiah Wilson and June Dunkelberger of Lompoc; Lisa Folks of Arroyo Grande; and Jerrie Walker of Vandenberg Air Force Base.

The youngest graduate this year was 18-year-old Mikhael Berrier of Pismo Beach, who received his AA in Spanish. He plans to transfer to a California state university to receive a bachelor's degree in business administration with an emphasis in small business management.

One of the oldest graduates was 60-year-old Jose Mierzejewski, who graduated with high

honors. The Santa Maria resident plans to reenter the job market to "give back to society," hopefully as an English as a Second Language tutor at Allan

Hancock College.

A crowd of nearly 2,500 family members and friends of the graduates attended the commencement exercise.

## National Frankenstein exhibit coming to AHC

Allan Hancock College has been selected as one of four sites in California to host a traveling exhibit developed by the National Endowment for the Humanities and National Library of Medicine in cooperation with the American Library Association. "Frankenstein: Penetrating the Secrets of Nature" provides a unique opportunity for Allan Hancock College students and community members to examine issues raised by Mary Shelley's classic book about the monster created by Victor Frankenstein. The exhibit showcases the book as a means of identifying contemporary issues such as cloning, gene manipulation, and organ transplants.

The college library will sponsor free programs and other events for the public in connection with the exhibit. A "monstrous" six weeks of

films, lectures—and a "frankenshrine"—are planned.

"*Frankenstein* is truly a story for 21st century America. It is not simply a story about an out-of-control scientist. It is a human-interest tale of ambition, idealism, revenge and forgiveness. Mary Shelley wrote *Frankenstein* to show society what happens when power is abused, knowledge is hidden, and members of a community do

not take responsibility for one another," said AHC Librarian Leslie Mosson.

The exhibit will begin a six-week visit at the Santa Maria campus' Learning Resources Center (library) on Sept. 27. Call 922-6966 ext. 3758 or email [library@hancock.cc.ca.us](mailto:library@hancock.cc.ca.us) for information.

## Allan Hancock College one of 32 UC-designated transfer sites

High school students seeking enrollment at a University of California campus now have a new option: the University of California Dual Admissions Program (DAP).

The UC system has just introduced this new admissions option for students who fall between the top 4 and 12.5 percent of their high school graduating class and who are not eligible to attend the University of California directly from high school. Under the DAP program, students who apply to one or more UC campuses and meet certain minimal requirements will receive a guaranteed offer of admission from a specific UC campus, provided they first complete a transfer program of study at a California community college.

To ensure transfer success

for these students, Allan Hancock College and 31 other California community colleges have been selected by the UC system

**Allan Hancock College is the only community college in San Luis Obispo and Santa Barbara counties to be selected**

to receive additional UC counseling and support. Allan Hancock College is the only community college in San Luis Obispo and Santa Barbara counties to be selected.

"This is a huge benefit to

high school students whose goal is to earn a bachelor's degree at a UC campus," said Jim West, dean, counseling and matriculation at Allan Hancock College. "Many students in the top 12.5 percent of their class who are not eligible to attend a UC directly from high school can now have a guaranteed seat after completing the requirements at Allan Hancock College." Students who use the DAP program enter the UC system as juniors.

The DAP program will be administered through the Allan Hancock College University Transfer Center and adds to the already existing transfer guarantee programs Allan Hancock College maintains with various University of California and California State University campuses.

● AHC student vineyards on the Santa Maria campus and south of Los Alamos are now equipped with high tech soil testing capabilities. The instruments monitor sub-surface moisture and salinity, and their readouts will be linked to the AHC Web site in order for viticulture and enology students to view constant changes in the vineyards' soil conditions. The equipment was donated by J.B. Dewar and SoilMoisture Equipment Corp.

## Who chooses Hancock?

**Students who want to transfer** to UCSB, UC Berkeley, Cal Poly, and other four-year universities. As a Hancock student, you enjoy transfer agreements with many universities. Through these agreements, if you successfully complete the required lower division courses at Hancock, you are guaranteed acceptance at the university of your choice.

**People who want to get on a career fast track** without a four-year degree. Computer animation, automotive technology, nursing, electronics, welding, business...the list goes on and on. Hancock has something for every career interest.

**Employees who want to move up** in their current career or move on to a new one. The key to a successful future awaits at Allan Hancock College. Schedule your college classes around your work schedule. Take evening, weekend, even online classes.

### Let's Compare

## Allan Hancock College Foundation board welcomes two new directors

The AHC Foundation continues to draw upon the services of distinguished community members who are leaders in their own right and will now help lead the foundation as members of the board of directors.

**Ernest DeGasparis** was raised in Guadalupe and is a partner with Weldon & DeGasparis, a Santa Maria law firm. He graduated from Santa Maria High School in 1962 and attended Santa Clara University, where he earned a bachelor's degree in economics, an MBA, and his juris doctorate. Mr. DeGasparis also served as a captain in the US Army in Vietnam prior to returning to Santa Maria to practice law in 1973. Mr. DeGasparis said, "Allan Hancock College offers everyone in the community the opportunity to enrich their lives, and I am proud to play a part." He also said he feels a connection to Allan Hancock College since both he and his father taught at the college in the 1970s.

**Joannie (Rojas) Jamieson**, a native Santa Maria and a UCSB graduate, is the newest member of the AHC Foundation board of directors. She is a land use consultant and works with her husband's construction company, Jamieson and Son, in Solvang. Mrs. Jamieson is the president of the Santa Ynez Valley Union High School Board, a delegate for the California School Boards Association, and has served over 22 years on both elementary and high school boards. She is also active in many Santa Ynez Valley charitable groups. Mrs. Jamieson has been supportive of Allan Hancock College since her husband, David, played baseball for the Bulldogs and graduated from AHC before graduating from UCSB. "I am a firm believer in the importance of the community college system and how it provides valuable education for both continuing students and students with immediate educational, professional and vocational needs."

## Students receive over \$150,000 in scholarships

The Allan Hancock College Foundation awarded 197 scholarships totaling \$157,975 to 174 top students this spring. Nearly 600 students, relatives, friends, donors and community members attended the college's 34th annual scholarship ceremony at the Santa Maria Elks Lodge #1538. Scholarships ranging in amounts up to \$5,000 were awarded to students from all parts of the Central Coast, from Solvang to Grover Beach.

A total of 100 donors from the community awarded schol-

arships to both returning and transferring students through the Allan Hancock College Foundation scholarship program.

The top scholarship winner was Steven P. Seyfert of Santa Maria who received the prestigious \$5,000 Marian Hancock Scholarship. The scholarship is named for Marian Hancock, the wife of Capt. G. Allan Hancock, for whom the college is named.

For more information about the scholarship program, contact the foundation office at 925-2004.

# Campaign Update: Building Student Success

by Tim Flemming, AHC Foundation Executive Director

Thanks to the hard work of 65 community volunteers and the generosity of hundreds of community members, our **Building Student Success** capital campaign has raised over \$3 million (including pending requests)! Now we need your help to secure the remaining \$1 million to meet our \$4 million goal.

Have you visited our newly re-modeled Student Center? **Building Student Success** capital campaign funds helped purchase furnishings and equipment. In addition to the Student Center, the capital campaign will help to fund:

- **Modular Buildings Conversion** – housing the student health center, computer labs, the university center & classrooms

- **Student Support Services Center** – transforming the old bookstore to house essential student services that help students stay and succeed in school

- **New Skills Center** for the noncredit and community services program, including English as a second language, health, business skills, foods and parenting (campaign funds will be used for equipment and furnishings)

We hope you will want to be a part of Building Student Success. Please consider making a gift of \$1,000 or more, payable over five years – just \$200 per year. To make a pledge, contact the Allan Hancock College Foundation at (805) 925-2004 or send your sup-

● **Finish the Job Committee.** From left, Royce Lewellen, Joe Olivera, Ann Foxworthy, Franziska Shepard, Dave Carty. Not pictured: Carol Anders, Sandy Carty, Ron Thatcher, Agnes Grogan.

port to AHC Foundation **Building Student Success**, P.O. Box 5170, Santa Maria, CA 93456.

Your donation, large or small, will make the difference and all contributions of \$1,000 or more will be recognized on our Donor Wall. Thank you for your support!

## The Kirchof family legacy

Family and friends of the late Alan Kirchof were guests of the college at a men's basketball game at the Allan Hancock College gymnasium this spring. A special ceremony was held at half time to present new athletic sideline chairs purchased in memory of Alan, who was an avid supporter of the athletic program at Allan Hancock College. Alan attended Santa Maria Junior College, now known as Allan Hancock College, as did one of his sons, Kim. At the presentation Mrs. Pat Kirchof, Alan's wife, noted, "The contribution of the chairs was a small way to say thank you to the college for the joy and happiness Alan found by his involvement with Allan Hancock College."

● At left: One of the new sideline chairs donated by the Kirchof family

## The Joe White Memorial Dinner & Auction

Sponsored by the Allan Hancock College Boosters, Inc.

■ Join us as we celebrate and pay tribute to Joe White's contributions to Allan Hancock College athletics and the community of Santa Maria. The proceeds raised through this event will be used to replace the gym floor and bleachers. Upon completion, the gym will be renamed in memory of Joe. This is a unique opportunity to show our appreciation by passing on Joe White's legacy to new generations.

**Saturday,**  
**August 23, 2003**  
Cocktails, 5:30 pm – Dinner, 7:07 pm  
**Santa Maria Fairpark**  
Tickets \$30 per person  
Table for 10 - \$300 per table

# Bulldog sports excel

Golf champion  
Josh Warthen

8 inches to set a new Allan Hancock College record while winning that event at the state regional track meet. Then she put the shot 39 feet 2 inches to take second place at the same meet.

Chris Stevens was named co-coach of the year for the northern division of the Western State Conference after his baseball

team, including four players named to the all-conference team, finished second in the northern division and qualified for the state tournament. Jim Van Ostrand was named conference co-player of the year, hitting .461 for the season. The right fielder also had a winning season as a relief pitcher. Others named to the all-conference team included catcher Cesar Reyes, shortstop Ben Hodges, and outfielder Chuy Frausto.

The women's tennis team finished the season ranked third in the state, with a 16-1 record, and won the Western State Conference title for the first time (shared with Ventura College). The top doubles team—Melissa Bailey, also the team's top singles player, and Monica Krier—was listed among the best eight doubles teams in southern California. Tennis coach Jack Hawkins was named WSC co-coach of the year.

Track and field stand-out Nika Miller

led by a top golfer and a record-breaking discus thrower, Allan Hancock College's athletes excelled this spring.

Josh Warthen—perhaps the most accomplished golfer in Allan Hancock College history—posted the lowest average round for any community college player in California this spring, averaging 71.4 strokes per 18 holes throughout the golf season. A medallist at the Western State Conference championship tournament, Warthen's strong play qualified him for the southern California regionals where he outstroked 77 other players to win it all with a two-day total of 146. Warthen ended one stroke behind the leader at the state championship.

Track and field star Nika Miller threw the discus 145 feet

UCSB will offer two bachelor's degrees on the AHC campus.

## UCSB offers new bachelor's degrees at Allan Hancock College

Beginning fall 2003, the University of California, Santa Barbara, will offer a bachelor of arts in both English and history at the UCSB Santa Maria Center on the Allan Hancock College campus. UCSB professors will teach the classes at Allan Hancock College via its live video link conferencing center and/or in person. The ad-

missions requirements and process are the same as that for students already attending UCSB. Students who want to complete a bachelor's degree from UCSB at Allan Hancock College should contact UCSB's Off Campus Studies office at 893-4056 or the Allan Hancock College University Transfer Center at 922-6966 ext. 3363.

### New child development B.A. degree at Allan Hancock College

The University of La Verne will offer a bachelor's degree in child development this fall at Allan Hancock College. For information or to schedule an appointment for academic advising, contact Israel Dominguez at (805) 542-9690 or [www.ulv.edu/sce](http://www.ulv.edu/sce).

## Computer-aided drafting and architecture classes on tap

The latest industry approaches to computer-aided drafting are part of the engineering technology sequence offered at Allan Hancock College this fall. Beginning Mechanical Drafting, Intro to Computer-Aided Drafting, Engineering Drawing, and Advanced Engineering Drawing are some of the classes offered to help individuals interested in a career in drafting or architecture drafting. The classes are closely linked with the college's architectural technology program, which offers training for entry-level positions in architec-

tural, drafting, construction or engineering fields, or preparation for transfer to a four-year university architecture program.

Instructor David Fernandez, a licensed architect and graduate of the Cal Poly School of Architecture, heads the program. "There is a growing need for CAD technicians in architecture and engineering fields. The industry is exploding as commercial and residential projects are developing quickly both locally and nationwide," said Fernandez. "Qualified individuals can complete this CAD training in to to four semes-

ters and be ready to enter the job market."

Also part of the series of classes in architecture and engineering are Architectural Graphics, Architectural Drawing, Materials of Construction and Uniform Building Codes, among others. See the credit class schedule for details. It is online at [www.hancockcollege.edu](http://www.hancockcollege.edu) (click on "Admissions/Class Schedules," then "Fall 2003 Schedule").

For more information about the Architectural Technology and CAD programs, call the Allan Hancock College counseling office at 922-6966 ext. 3293.
