APPENDIX 6A

Law Enforcement Code of Ethics

As A Law Enforcement Officer, my fundamental duty is to serve; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest, in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God¹ to my chosen profession...Law Enforcement.

¹ Reference to religious affirmation may be omitted where objected to by the officer.
APPENDIX 6B

CODE OF PROFESSIONAL CONDUCT AND RESPONSIBILITY
FOR
PEACE OFFICERS

I. PREAMBLE

WHEREAS, peace officers are vested with a public trust which requires that they consistently demonstrate the highest degree of integrity and good moral character, and

WHEREAS, the need to maintain high standards of moral character, integrity, knowledge, and trust requires the establishment of a Code of Professional Conduct and Responsibility for Peace Officers as a matter of the highest significance to the health, welfare, and safety of the citizens of this state; and

WHEREAS, the establishment of a Code of Professional Conduct and Responsibility for Peace Officers, which includes Canons of Ethics and minimum standards, requires the granting of authority to enforce these standards of professional conduct through disciplinary action as necessary for the protection of the health, welfare, and safety of the public;

BE IT RESOLVED that the need to maintain high standards of moral character, integrity, knowledge, and trust require that peace officers establish and conform to a Code of Professional Conduct and Responsibility for Peace Officers.

II. GENERAL STATEMENT

Peace officers are granted a public trust which requires that they consistently demonstrate the highest degree of integrity. To be worthy of this public trust, and to ensure that their professional conduct is above reproach, members of the peace officer profession must not only conform to a Code of Ethics but must also abide by these Canons of Ethics and Ethical Standards which constitute this Code of Professional Conduct and Responsibility as a means of internal regulation.

The essence of a profession requires that, in addition to prescribing a desired level of performance, it must establish minimum standards of ethical conduct with prescribed rules for internal discipline to ensure compliance. Accordingly, this Code of Professional Conduct and Responsibility is established for the peace officer profession.

Nothing in the Code of Professional Conduct and Responsibility for Peace Officers is intended to limit or supersede any provision of law relating to the duties and obligations of peace officers or the consequences of a violation thereof. Whereas these rules specify certain conduct as unprofessional, this is not to be interpreted as approval of conduct not specifically mentioned.

Nothing in this Code is intended to limit the authority of an agency to adopt and enforce rules and regulations that are more stringent or comprehensive than those that are contained in this Code of Professional Conduct and Responsibility for Peace Officers.

III. DEFINITIONS

This Code of Professional Conduct and Responsibility for Peace Officers is comprised of nine Canons of Ethics, with explanatory statements in the form of Ethical Standards. Examples of Disciplinary Rules and Enforcement Procedures are included as an addendum for individual agency consideration. Following are definitions of these terms, as used in the context of the code.
A. “PEACE OFFICER” means a regular employed and full-time sheriff, undersheriff, or deputy sheriff of a county; a chief of police, or any police officer of a city or any chief of police or police officer of a district authorized by law to maintain a police department, or any other person within the state who is defined as a peace officer.
B. “CANONS” are statements that express in general terms standards of professional conduct expected of peace officers in their relationship with the public, the criminal justice system, and the peace officer profession. They embody the general concepts from which the Ethical Standards and the Disciplinary Rules are derived.

C. “ETHICAL STANDARDS” are statements that represent the objectives toward which every peace officer shall strive. They constitute principles that can be relied upon by the peace officer for guidance in specific situations.

D. “DISCIPLINARY RULES” specify an unacceptable level of conduct for all peace officers, regardless of their rank or the nature of their assignment. Any peace officer who violates any agency rule that applies to these canons and standards is guilty of unprofessional conduct, and is subject to disciplinary action. Violation of disciplinary rules requires appropriate adjudication and disciplinary action ranging from oral reprimand to termination and/or criminal prosecution or other administrative action sanctioned by law, as dictated by the individual case.

E. “ENFORCEMENT PROCEDURES” are the fundamental rights of an accused officer which are applicable to a disciplinary investigation or proceeding against the officer.

F. “ADMINISTRATIVE INVESTIGATION” is an investigation conducted to determine whether an officer has violated any provision of this code, or an agency rule or regulation; or whether an officer is impaired or unfit to perform the duties and responsibilities of a peace officer.

G. “FORMAL DISCIPLINE” refers to the final adjudication of administrative or disciplinary charges. Formal discipline shall be deemed final only after an officer has exhausted or waived all legal remedies available and actual discipline has been invoked.

19.00 RECRUIT TRAINING OFFICER (RTO) GUIDELINES

A. The Peace Officer Standards and Training (POST) mandated Academy mission is to prepare Recruits physically, mentally, emotionally and ethically to complete the Field Training Program.

The mission of the Academy Recruit Training Officer (RTO) is to promote teamwork and provide Recruits with a well disciplined, realistic, and stressful learning environment, training them to control their emotions (fear, intimidation, anger, etc.), remain calm, think clearly, and be able to function mentally and physically under all conditions.

1. Recruits will be able to perform pushups, leg lunges, air squats, pull ups and close order drill movements while reciting information from the POST Learning Domains, Vehicle Code, Penal Code, etc.

2. An RTO may address at anytime a Recruit’s poor appearance, lack of physical fitness, poor body language, failure to follow verbal instructions or close order drill directions, demeanor, and inappropriate facial expressions.

3. An RTO’s job is not to get Recruits to quit the Academy. Rather, they should be trying to get Recruits to develop emotional control, self discipline and the ability to remain calm and clear headed under stress. Recruits will decide if they are prepared to remain in the current Academy class or wait for the next Academy class based on the Recruits’ ability to function under a military style of discipline, combined with their physical training, academic exam scores, memorandum writing, etc.

B. RTO’s will maintain a professional demeanor at all times, yet be intimidating, stressful, and traditional military. RTO’s are to be confrontational, harsh, and demand a high level of functioning during interaction with Recruits.
1. The RTO’S interaction with a Recruit is not considered hazing or harassment but an opportunity to provide Recruits with a “Stress Inoculation” so that they can learn how to control their emotions (i.e., fear, intimidation, anger, etc.) when confronted with a high stress situation.

2. The following rules shall be strictly followed by the RTO:
   a. No profanity
   b. No verbal insults based on sexual orientation, gender, race, ethnicity, religion, or age
   c. No inappropriate touching of Recruits.
   d. If a recruit feels any of these rules have been violated, the recruit shall immediately report it to Academy staff.

C. Disciplinary Measures may include but not limited to: pushups, leg lunges, air squats, sprints, pull ups, written memorandum(s), and/or oral presentation(s).

   1. Disciplinary memorandums should not be more than one page except for administrative memos such as law enforcement contacts, ride-a-longs, injuries, autobiography, etc.

   2. Those Recruits who have been assigned to make oral presentations to their fellow recruits, the oral presentation will be a minimum of 3 to a maximum of 5 minutes in length.

CI. Once the class has become self disciplined, RTO’s will shift from being a “drill instructor” to being a “field training officer” (FTO). The RTO’S role will be to set up learning scenarios related to or compliments current classroom instructional topics.

19.01 COLORS CEREMONY:

Most training days, the Recruits will be responsible for raising and retiring the flags at the Public Safety Training Complex when directed.

19.02 RAISING THE COLORS:

A. RTO staff shall assign one squad of the Recruit class to serve as Color Detail for the day.

B. On orders from the RTO, the Color Detail Leader will give the State and National Colors to the recruit centered on that squad.

C. The Colors Detail Leader positions himself on line with the last Recruit in the squad and marches the detail to the flagpole. He halts the detail in
column on the walkway facing and centered upon the flagpole and positions himself within the squad directly opposite the flagpole.

D. When the Colors Squad Leader commands POST the two Recruits on each end of the squad immediately move to either side of the flagpole and free the halyards. At the same time, the two Recruits next to the Squad Leader step out and face to the center.

E. The Squad Leader then directs, “THE UNFOLDING OF THE COLORS.” On this order, the two Recruits next to the Squad Leader carefully unfold the National Colors lengthwise, passing the freed end to the other handlers. The flag handlers move away from the flagpole as necessary until the flag is fully extended. The flag handlers unfold the flag waist high with their forearms horizontal to the ground.

F. At the appropriate time, the Squad Leader directs, “ATTACH THE COLORS.” At this time, the two handlers nearest the flagpole attach the top of the flag to the halyard. The halyard pullers raise the halyards until the bottom of the flag can be attached.

G. After repeating the above procedures with the State flag, the flag handlers remain in position.

H. When the Colors Squad Leader commands, “PREPARE FOR COLORS,” the Class Sergeant commands, “PRESENT ARMS!” All Recruits except handlers then salute as the halyard pullers rapidly raise the Colors, as the Colors leave the handlers arms; they face the flagpole and salute.

I. After the Colors are raised, the Class Sergeant commands, “ORDER ARMS!” for all Recruits. The halyard pullers secure the halyards. The halyard pullers and flag handlers then realign with their squad.

J. The Colors Squad Leader then marches the squad to rejoin the Class.

K. The Class Sergeant then marches the class back to the main formation area.

19.03 RETIRING THE COLORS:

A. The Colors Squad moves to the flagpole and positions itself in the same manner as when raising the Colors.

B. On the command “POST” the flag handlers step out, but do not face the center. The halyard pullers free the halyards; untangle them and stand-by for the Colors Squad Leader’s command, “PREPARE FOR COLORS.”
C. On the Squad Leader’s signal, and on the Class Sergeant’s command of “PRESENT ARMS,” all Recruits except the halyard pullers render a hand salute.

D. The halyard pullers slowly lower the Colors. As the flag approaches reaching distance, the flag handlers end their salutes and secure the Colors.

E. Once the Colors and halyards are secured. The Class Sergeant commands, “ORDER ARMS!”

F. The flag handlers fold each flag as shown in this manual.

G. After both flags are folded, the Colors Squad rejoins the class.

H. The Class Sergeant then marches the class back to the main formation area.

19.04 RECITATION:

A. Recruits will be given a list of Penal, Vehicle code sections, and radio codes at the beginning of the Academy training. Each list is divided by Learning Domain to correspond with Academy instruction. Recruits will be required to recite the specific code, elements of the code and crime classification. Recruits will also be required to recite pertinent codes and data of material covered during classroom lecture.

B. The purpose of requiring Recruits to recite course-related material in ranks is to:

- Reinforce material taught in the classroom
- Promote poise and confidence
- Promote command voice and presence
- Develop the ability to think under pressure

C. Recruits who are deficient in recitation may be assigned a memorandum(S) to address the area of weakness.

19.05 MANUAL OF ARMS:

A. PISTOL

1. General:

   a. This appendix contains the procedures for executing the manual of arms with the pistol.
b. All individual drill movements are executed as prescribed with the weapon secured in the holster.

2. Manual movements:

a. On the command of preparation, “INSPECTION,” unsnap your thumb snap of the holster with your primary hand and grasp the pistol grip. On the command of, "ARMS", withdraw the pistol from the holster, raising your forearm to the front until your hand is approximately 6 inches in front of your right shoulder, and the right elbow is against your side. Hold the pistol grip in a “U” formed by the thumb and last three fingers. Extend your forefinger outside and alongside the trigger guard. Point the muzzle outward and up at approximately a 30-degree angle.

b. On the command of execution, “ARMS” return the weapon in the most convenient manner, fasten the thumb snap, and resume the position of attention.

c. Inspection arms:

i. The command for this movement is “INSPECTION ARMS.” On the command of preparation, “ARMS,” execute raised pistol and then without lowering the weapon, reach across the body and grasp the slide with your support hand palm and fingers so that your palm is on your body side of the slide. Push the slide fully to the rear and engage the stop in its notch with your weapon hand thumb. Return your support hand back to your side and remain at raised pistol.

ii. "ORDER, ARMS,” is the only command that may be given from inspection arms. On the command, "ORDER", place your weapon hand thumb on the slide stop. On the command “ARMS", press the slide stop, allowing the slide to go forward, and return the weapon to the holster, fasten the flap, and resume the position of attention.

iii. To execute inspection arms with the magazine in the weapon, execute raised pistol and then remove the magazine and place it between the belt and
clothing before locking the slide to the rear. After pulling the trigger and before returning the pistol to the holster, return the magazine to the weapon.

iv. If the pistol is inspected in ranks and the inspecting officer takes the weapon, lower the weapon hand smartly to the side. When the inspecting officer is ready to return the pistol, raise your weapon hand back to the raised position and accept the weapon. After the pistol is returned, allow the slide to go forward, pull the trigger, return the pistol to the holster, and resume the position of attention.
APPENDIX 19A

Fold the lower striped section of the flag over the blue field.

Start a triangular fold by bringing the striped corner of the folded edge to the open edge.

Fold the outer point inward parallel with the open edge to form a second triangle.

Continue folding until the entire length of the flag is folded into a triangle with only the blue field and margin showing.

Tuck the remaining margin into the pocket formed by the folds at the blue field edge of the flag.

The properly folded flag should resemble a cocked hat.

BP 3430  PROHIBITION OF HARASSMENT

The Allan Hancock Joint Community College District (“District”) is committed to providing an academic and work environment that respects the dignity of individuals and groups. The District shall be free of sexual harassment and all forms of sexual intimidation and exploitation. It shall also be free of other unlawful harassment, including that which is based on any of the following statuses: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation of any person, or because he or she is perceived to have one or more of the foregoing characteristics, or because he or she associates with persons with those characteristics.

The District seeks to foster an environment in which all employees feel free to report incidents of harassment without fear of retaliation or reprisal. Therefore, the District also strictly prohibits retaliation against any individual for filing a complaint of harassment or for participating in a harassment investigation. Such conduct is illegal and constitutes a violation of this policy. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that retaliation has occurred, it will take all reasonable steps within its power to stop such conduct.

Any individual who believes that he or she has been harassed or retaliated against in violation of this policy should immediately report such incidents by following the procedures described in Administration Regulation 3430. Supervisors, Managers and Administrators are required to report all incidents of harassment and retaliation that come to their attention.

This policy applies to all terms and conditions of employment, including but not limited to, hiring, assignment, promotion, disciplinary action, layoff, recall, transfer, leaves of absence, training opportunities and compensation.

To this end the Superintendent/President or designee shall ensure that the institution undertakes education and training activities to counter discrimination and to prevent, minimize and/or eliminate any hostile environment that impairs access to equal education opportunity or impacts the terms and conditions of employment.
The Superintendent/President or designee shall establish procedures that define harassment on campus. The Superintendent/President or designee shall further establish procedures for employees and other members of the campus community that provide for the investigation and resolution of complaints regarding harassment and discrimination. AP 3430 PROHIBITION OF HARASSMENT

The District is committed to providing an academic and work environment free of unlawful harassment. This procedure defines sexual harassment and other forms of harassment on campus, and sets forth a procedure for the investigation and resolution of complaints of harassment by or against any staff or faculty member or student within the District.

This procedure and the related policy protects students and employees in connection with all the academic, educational, extracurricular, athletic, and other programs of the District, whether those programs take place in the District's facilities, a District bus, or at a class or training program sponsored by the District at another location.

Definitions

General Harassment: Harassment based on race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, or sexual orientation of any person, or military and veteran status, or the perception that a person has one or more of these characteristics is illegal and violates District policy. Gender-based harassment does not necessarily involve conduct that is sexual. Any hostile or offensive conduct based on gender can constitute prohibited harassment. For example, repeated derisive comments about a person’s competency to do the job, when based on that person’s gender, could constitute gender-based harassment. Harassment comes in many forms, including but not limited to the following conduct:

Verbal: Inappropriate or offensive remarks, slurs, jokes or innuendoes based on a person’s race gender, sexual orientation, or other protected status. This may include, but is not limited to, inappropriate comments regarding an individual's body, physical appearance, attire, sexual prowess, marital status or sexual orientation; unwelcome flirting or propositions; demands for sexual favors; verbal abuse, threats or intimidation; or sexist, patronizing or ridiculing statements that convey derogatory attitudes based on gender, race nationality, sexual orientation or other protected status.

Physical: Inappropriate or offensive touching, assault, or physical interference with free movement. This may include, but is not limited to, kissing, patting,
lingering or intimate touches, grabbing, pinching, leering, staring, unnecessarily brushing against or blocking another person, whistling or sexual gestures. It also includes any physical assault or intimidation directed at an individual due to that person's gender, race, national origin, sexual orientation or other protected status. Physical sexual harassment includes acts of sexual violence, such as rape, sexual assault, sexual battery, and sexual coercion. Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent due to the victim's use of drugs or alcohol. An individual also may be unable to give consent due to an intellectual or other disability.

**Visual or Written:** The display or circulation of visual or written material that degrades an individual or group based on gender, race, nationality, sexual orientation, or other protected status. This may include, but is not limited to, posters, cartoons, drawings, graffiti, reading materials, computer graphics or electronic media transmissions.

**Environmental:** A hostile academic or work environment exists where it is permeated by sexual innuendo; insults or abusive comments directed at an individual or group based on gender, race, nationality, sexual orientation or other protected status; or gratuitous comments regarding gender, race, sexual orientation, or other protected status that are not relevant to the subject matter of the class or activities on the job. A hostile environment can arise from an unwarranted focus on sexual topics or sexually suggestive statements in the classroom or work environment. It can also be created by an unwarranted focus on, or stereotyping of, particular racial or ethnic groups, sexual orientations, genders or other protected statuses. An environment may also be hostile toward anyone who merely witnesses unlawful harassment in his/her immediate surroundings, although the conduct is directed at others. The determination of whether an environment is hostile is based on the totality of the circumstances, including such factors as the frequency of the conduct, the severity of the conduct, whether the conduct is humiliating or physically threatening, and whether the conduct unreasonably interferes with an individual's learning or work.

**Sexual Harassment:** In addition to the above, sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other conduct of a sexual nature when:

- submission to the conduct is made a term or condition of an individual's employment, academic status, or progress;
- submission to, or rejection of, the conduct by the individual is used as a basis of employment or academic decisions affecting the individual;
- the conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile or offensive work or educational environment; or
• submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the community college.

This definition encompasses two kinds of sexual harassment:

"Quid pro quo" sexual harassment occurs when a person in a position of authority makes educational or employment benefits conditional upon an individual's willingness to engage in or tolerate unwanted sexual conduct.

"Hostile environment" sexual harassment occurs when unwelcome conduct based on a person's gender is sufficiently severe or pervasive so as to alter the conditions of an individual's learning or work environment, unreasonably interfere with an individual's academic or work performance, or create an intimidating, hostile, or abusive learning or work environment. The victim must subjectively perceive the environment as hostile, and the harassment must be such that a reasonable person of the same gender would perceive the environment as hostile. A single or isolated incident of sexual harassment may be sufficient to create a hostile environment if it is severe, i.e. a sexual assault.

Sexually harassing conduct can occur between people of the same or different genders. The standard for determining whether conduct constitutes sexual harassment is whether a reasonable person of the same gender as the victim would perceive the conduct as harassment based on sex.

Examples: Harassment includes, but is not limited to the following misconduct:

• **Verbal:** Inappropriate or offensive remarks, slurs, jokes or innuendoes based on a person's protected status, including but not limited to sex. This may include, but is not limited to, inappropriate comments regarding an individual's body, physical appearance, attire, sexual prowess, marital status or sexual orientation; unwelcome flirting or propositions; demands for sexual favors; verbal abuse, threats or intimidation of a sexual nature; or sexist, patronizing or ridiculing statements that convey derogatory attitudes about a particular gender.

• **Physical:** Inappropriate or offensive touching, assault, or physical interference with free movement. This may include, but is not limited to, kissing, patting, lingering or intimate touches, grabbing, pinching, leering, staring, unnecessarily brushing against or blocking another person, whistling or sexual gestures.

• **Visual or Written:** The display or circulation of offensive sexually oriented or other discriminatory visual or written material. This may include, but is not limited to, posters, cartoons, drawings, graffiti, reading materials, computer graphics or electronic media transmissions.

• **Environmental:** An academic or work environment that is permeated with racially or sexually-oriented talk, innuendo, insults or abuse not relevant to the subject matter of the class or activities on the job. A hostile environment can
arise from an unwarranted focus on sexual topics or sexually suggestive statements in the classroom or work environment. An environment may be hostile if unwelcome sexual behavior or other harassing behavior based on a protected status is directed specifically at an individual or if the individual merely witnesses unlawful harassment in his/her immediate surroundings. The determination of whether an environment is hostile is based on the totality of the circumstances, including such factors as the frequency of the conduct, the severity of the conduct, whether the conduct is humiliating or physically threatening, and whether the conduct unreasonably interferes with an individual's learning or work.

Consensual Relationships
Romantic or sexual relationships between supervisors and employees, or between administrators, faculty or staff members and students are discouraged. There is an inherent imbalance of power and potential for exploitation in such relationships. A conflict of interest may arise if the administrator, faculty or staff member must evaluate the student's or employee's work or make decisions affecting the employee or student. The relationship may create an appearance of impropriety and lead to charges of favoritism by other students or employees. A consensual sexual relationship may change, with the result that sexual conduct that was once welcome becomes unwelcome and harassing. In the event that such relationships do occur, the District has the authority to transfer any involved employee to eliminate or attenuate the supervisory authority of one over the other, or of a teacher over a student. Such action by the District is a proactive and preventive measure to avoid possible charges of harassment and does not constitute discipline against any affected employee.

Academic Freedom
To the extent the harassment policies and procedures are in conflict with the District’s policy on academic freedom (see BP 4030 titled Academic Freedom), the harassment policies and procedures shall prevail. If the faculty member wishes to use sexually explicit materials in the classroom as a teaching technique, the faculty member must review that use with an administrator to determine whether or not this violates the sexual harassment policy.

_____________________________________________________________________

Adopted: 6/14/16

(This is a new policy)
Students enrolled at Allan Hancock College are required to maintain a specific level of academic and progress performance to be in good scholastic standing. This performance is based on the provision of Title 5 of the California Code of Regulations and the Governing Board of Allan Hancock College. If a student cannot meet minimum academic standards after attempting at least 8 semester units, he/she will be placed on a probationary status. Allan Hancock College identifies two types of probation: academic and progress probation. Students on academic and/or progress probation will be assisted by faculty in the counseling department to regain good standing and ensure academic goal completion.

Academic Standing Definitions

Good Standing
Allan Hancock College requires students to meet the minimum standards to be in good standing. Good standing is achieved when a student meets or exceeds a 2.0 cumulative grade point average (GPA) and completes more than 50% of his/her cumulative units with a letter grade (A, B, C, D, or F) or P (pass).

Academic Probation
Academic probation occurs when a student has attempted at least 8 semester units at Allan Hancock College and has earned below a 2.0 cumulative GPA. He/she will be placed on academic probation after semester grades are final.

First Academic Probation
A student is placed on first academic probation when his/her cumulative GPA is below a 2.0. If the student enrolls for another semester, as a first academic probation student, the following may occur at the end of the semester:

- **Possible Outcome 1:** The student’s cumulative GPA meets or exceeds a 2.0. **Result:** The student regains good standing.

- **Possible Outcome 2:** The student’s cumulative GPA is below a 2.0. **Result:** The student is placed on second academic probation. A student on second academic probation will lose priority registration privileges, and Board of Governors (BOG) fee waiver eligibility.

Second Academic Probation
A student is placed on second academic probation when his/her cumulative GPA is below a 2.0 for two consecutive semesters. At this level, the student is restricted to 9 units. If
the student enrolls for another semester, as a second academic probation student, the following may occur at the end of the semester:

- **Possible Outcome 1:** The student’s cumulative GPA meets or exceeds a 2.0.
  **Result:** The student regains good standing.

- **Possible Outcome 2:** The student’s cumulative GPA is below a 2.0 for two consecutive semesters.
  **Result:** Being unable to meet the college’s minimum academic standards is a serious matter; as a result, the student is dismissed from the college and required to sit out for the subsequent primary semester, including summer if dismissed after spring. If the student wishes to return, he/she is required to proceed with the reinstatement process.

**Progress Probation**

Progress probation occurs when a student has attempted at least 8 semester units at Allan Hancock College and has not completed more than 50% of his/her cumulative units with a letter grade (A, B, C, D or F) and P (pass), he/she will be placed on progress probation after semester grades are final.

**First Progress Probation**

A student is placed on first progress probation when he/she has not completed more than 50% of his/her cumulative units with a letter grade (A, B, C, D or F) and P (pass). If the student enrolls for another semester, as a first progress probation student, the following may occur at the end of the semester:

- **Possible Outcome 1:** The student completes more than 50% of his/her cumulative units.
  **Result:** The student has regained good standing.

- **Possible Outcome 2:** The student does not complete more than 50% of his/her cumulative units.
  **Result:** The student is placed on second progress probation. A student on second progress probation will lose priority registration privileges.

**Second Progress Probation**

A student is placed on second progress probation when he/she has not completed more than 50% of his/her cumulative units. At this level, the student is restricted to 9 units. If the student enrolls for another semester, as a second progress probation student, the following may occur at the end of the semester:

- **Possible Outcome 1:** The student completes more than 50% of his/her cumulative units.
  **Result:** The student has regained good standing.

- **Possible Outcome 2:** The student does not complete more than 50% of his/her cumulative units for two consecutive semesters.
  **Result:** Being unable to meet the college’s minimum academic standards is a serious matter; as a result, the student is dismissed from the college and required to sit out for the subsequent primary semester, including summer if dismissed after spring. If the student wishes to return, he/she is required to proceed with the reinstatement process.
Notification of Probation
Each student is entitled to be notified of his/her academic difficulty and the availability of college support services to respond to the academic difficulty before the student is dismissed. An email notification will consist, at a minimum, of the following: At the end of the semester in which the student’s grade point average falls below 2.0 in all units attempted, a notice that the student is on probation shall be sent to the student informing him/her that he/she is on academic and/or progress probation. “All units attempted” is defined as all units of credit for which the student is enrolled in at the community college that they attend.

If the percentage of a student’s recorded entries of “W,” “I,” “NC” and “NP” exceeds 50% of all units in which a student has enrolled, the student shall be placed on progress probation.

At the end of the third semester on which the student is on academic and/or progress probation, a notice that the student is subject to dismissal will be sent to the student informing him/her that he/she is subject to dismissal.

Probationary Letter
The letter notifying the student of probation will cover, at a minimum, the significance of being on probation and description of the services available.

Notification of Academic Standing
Once grades are finalized at the end of each semester, all students are notified via myHancock email of his/her academic standing.

All students with documented disabilities will meet with the specialist or LAP counselor to develop an Academic Accommodation Plan (AAP). The specialist will determine and document whether or not request(s) for specific academic accommodations are reasonable and assure delivery of necessary accommodations in a timely manner.
Course Substitution or Waiver
The District recognizes that a disability may preclude a student from completing AA or AS degree or program certificate course requirements in the same manner expected of non-disabled students. The District also recognizes the need to accommodate students without compromising a disabled student's course of study or degree, and without compromising the integrity of the college's programs.

The District intends for all of its graduates to master the competencies required by Title 5 and to complete the courses required for an AA or AS degree or a program certificate. The District recognizes that most disabilities which preclude a student from completing a course can be overcome by altering the method of course delivery and providing a combination of appropriate accommodations, such as tutorial assistance, auxiliary aids, test accommodations, or other reasonable accommodations.

For some disabled students, such accommodations will not be sufficient to enable them to complete a specific course of study. For these students, a course substitution or waiver will be considered. If a student with a verified disability has attempted to complete the course and has demonstrated that receiving extra help with a required course or altering the means of delivery of that course is insufficient to enable him/her to complete the course, or if the student can show that his/her disability is of such magnitude that any attempt at completing the course would be futile, the student may request a course substitution or waiver using the following procedure:

Step 1  The student will submit a completed Course Substitution or/Waiver form to the chairperson of the appropriate department.

Step 2  The chairperson of the department will review the petition and determine if a course substitution or waiver of program requirement(s) is appropriate and approve or disapprove the petition.

Step 3  If the student is not satisfied with the decision of the department chairperson and wishes to pursue the matter further, the student will submit the petition to the Course Substitution or/Waiver Committee (CSWC). This committee is composed of the Chief Student Services Officer (who will chair the committee), two faculty members appointed by the Academic Senate, and one student appointed by the ASBG. The CSWC will hold a hearing to review the petition within 15 regular session days of receiving the student's petition. If additional days are needed, the Superintendent/President may authorize an extension beyond the time limit of 15 days. If additional time is needed by the CSWC or the student, the Superintendent/President may grant an extension of time beyond the 15 day limit. The student and appropriate department representative(s) shall attend the hearing. The committee may request the attendance of resource persons, if needed.

Step 4  This committee will review the student's petition and make recommendation to substitute a course for a required course only if the committee determines that the content of the required course can be reasonably met with another
course (substitution) and that the student has no chance of successfully completing the required course even with all the accommodations the college can offer. A waiver will only be considered when the student has no chance of successfully completing the required courses and there are no viable alternatives as determined by the CSWC.

**Step 5**

Within five regular session days, or as soon as practical after the hearing, the chairperson of the CSWC will submit the CSWC’s recommendations based on its findings to the superintendent/president. A copy of the recommendations will be forwarded to the student and the department chairperson.

**Step 6**

Within ten regular session days, or as soon as practical after receiving the written recommendation(s) of the CSWC, the Superintendent/President will issue a decision.

**Student’s Grievance Rights**

If the issue is not resolved to the satisfaction of the student, the student has a right to file a formal complaint concerning any allegation of failure to comply with the laws, regulations, and procedures as set forth in Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 1974), Title 5, and the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2008 (ADAAA). Complaints shall be processed through the existing college formal discrimination complaint procedures in AP 5530 titled Student Rights and Grievances.

**LAP Advisory Committee**

The purpose of the advisory committee is to assist the college in developing and maintaining effective extended opportunity programs and services. The LAP Advisory Committee shall meet at least once during each semester.

BP 5500  STANDARDS OF STUDENT CONDUCT

The Superintendent/President shall establish procedures for the imposition of discipline on students in accordance with the requirements for due process of the federal and state law and regulations.

The procedures shall clearly define the conduct that is subject to discipline and shall identify potential disciplinary actions, including but not limited to the removal, suspension, or expulsion of a student.

The Board of Trustees shall consider any recommendation from the Superintendent/President for expulsion. The Board shall consider an expulsion recommendation in closed session unless the student requests that the matter be considered in a public meeting. Final action by the Board on the expulsion shall be taken at a public meeting.

The Standards of Student Conduct and disciplinary procedures shall be made widely available to students through the college catalog and other means.

CORE VALUES

CORE VALUES

As an Allan Hancock College Academy Recruit, you have been required to look up and write the dictionary definitions of these Six Core Values. This is not assigned to you as harassment, punishment or as a mere exercise. Over the next several months, you will be repeatedly asked to recite one or all of these Core Values and state their definitions. You will be asked to apply them to real and hypothetical situations. Failure will result in immediate and somewhat unpleasant consequences for you. This will be done not only because it is critical to your survival as an American Law Enforcement Professional, but more importantly, because it is vital to our survival as a society!

Therefore, you are cautioned not to begin this assignment as a mere memorization and recitation exercise; rather you are urged to internalize these values as your own and reflect on them throughout your career.

I. **Honor:** 1. One deserving of esteem or respect. 2. Reputation. 3. Personal integrity. 4. To confer distinction upon one deserving. Who you ARE at your core; what you stand for; essentially your moral or ethical reputation or standing in the eyes of others.

*less than 100 years ago people would die rather than tolerate a challenge to their “honor” – dueling*

II. **Duty:** 1. Something that a person ought to, or must do. 2. Moral obligation. 3. A service, action or task assigned, such as military service or law enforcement. 4. Something one has given an oath to do (sworn officers) or perform.

*instinct to protect the weak from predators, the innocent from deception, the peaceful from violence, to protect lives and property and protecting everyones Constitutional rights to liberty, justice and equality.*

III. **Integrity:** 1. Strict adherence to a high moral standard, value or code of conduct. 2. Personal honesty and independence from peer pressure; desire to be liked or popular, a reverence for the law.

*Trustworthy, Honesty: testimony in court under oath, custody of evidence entrusted to you. (Stealing, cheating, or lying as an officer would destroy your integrity; your word is your value. Once your credibility is compromised, you are washed up as a cop.)*
IV. **Courage:** 1. The ability to face danger in spite of fear.

    *However, there is a difference between physical courage and moral courage; not always the absence of fear, BUT, proper/courageous action in spite of fear.*

    *there is no place for cowardice in law enforcement, it is still a termination offense in most agencies. It doesn’t mean you are never afraid, rather, it means you perform your duty in the face of danger, in spite of your fears.*

V. **Discipline:** 1. Training intended to elicit a specific pattern of behavior OR character; 2. Behavior that results from such training.

    *External vs. internal discipline. Self-Discipline is the key to a good officer. The academy begins with external discipline, but, overtime; you should INTERNALIZE it to become self-disciplined. This is the goal of Academy discipline.*

VI. **Compassion:** 1. Active sympathetic concern for the suffering of another, (i.e. mercy.) 2. Respect for differences; cultural, gender, religious, ethnic, sexual orientation, etc.

    *Compassion differs from sympathy, in that it compels one to take action to relieve the suffering of another.*

    *Ignorance is the major obstacle to developing compassion for others who are different from you! It is NOT their responsibility to educate you or to change their behavior. Rather, as a law enforcement professional, it is YOUR responsibility to educate yourself, to eradicate your own ignorance and respect those you have sworn to serve and protect.*
INSTRUCTOR AND STUDENT SAFETY MANUAL FOR SKILLS COURSES

February 2016
ARREST AND CONTROL COURSES
SAFETY RULES AND GUIDELINES

A copy of these safety rules and guidelines will be provided to each instructor and student and a discussion of the rules will be conducted on the first session of class. The safety rules and guidelines will be reviewed at the beginning of each class session. The first violation of any arrest and control safety rule(s) or guideline(s) will result in an immediate verbal warning. A second violation will result in an immediate verbal warning and a formal written reprimand to be placed in the student’s recruit personnel file. A third violation will result in the student’s dismissal from the class and no credit given for arrest and control training.

All class sessions (with the exception of impact weapons training and foot pursuit/altercation simulations which are conducted outdoors) will occur in a well-ventilated and air conditioned classroom with interlocking Swain Judo Tatami mats. Men’s and Women’s restrooms are adjacent as are drinking fountains. This room is approximately 2,368 SF.

Instructors will conduct a pre-training inspection of the students, their equipment, and classroom before each class session. All physical contact sessions will utilize proper protective equipment including mouth guards, mats, FIST suit, boxing head gear, gloves, groin and chest protection, and striking pads. All mat surfaces are wiped down and cleaned with a disinfectant agent prior to training.

All Instructors will have successfully completed a POST approved Defensive Tactics Instructor Course and will periodically take update courses.

All Students will be current or prospective law enforcement officers who have graduated from, or are currently enrolled in the POST Certified Basic Academy or students who are taking a Penal Code (PC) 832 certification course. Instructor to student ratios may be larger than with an instructor certification course during lecture (for whom the ratio is one instructor per 12 students) than a student class (for whom the ratio is one instructor per four active students).

Arrest and control instructors are also encouraged to become POST Certified Physical Conditioning Instructors and to be aware of physical fatigue factors that may affect safety, environmental conditions that would preclude strenuous activity, minimum physical fitness requirements for participation and will advise Students at the beginning of class of their physical expectations and requirements. Each class session will begin with a warm up and stretching activity and conclude with a cool down activity.

All students will be responsible for adhering to the following safety rules and guidelines at all times during arrest and control class sessions.

- Partner selection: Oftentimes a stranger is a better pick than someone from your agency or someone you know. Don’t pick a partner because they’re the person you came with. Pick one who is approximately the same size, weight, gender, physical fitness level, age, skill level (martial arts background), enthusiasm vs. trepidation level.

- Discuss preexisting injuries with your partner, be candid, and make adjustments for them, example: if they have a bad left shoulder, use their right arm for practicing a technique that puts a lot of stress on the shoulders. NOTE: If you ask the instructor a question, and they’re about to demonstrate on your partner so you can see the technique being done properly, tell that instructor about your partner’s injury BEFORE they apply the technique to them!
• No horseplay! Joking around will not be tolerated! Absolutely no self-initiated wrestling matches or “slap fights.” No free-for-all mat sessions, all students are to be off the mats during breaks and are not to practice any technique without supervision and specific permission from an instructor. Experience has taught that many of the most serious injuries suffered during Arrest and Control training sessions have occurred during the breaks while students were “playing around” rather than while performing an authorized technique or practice drill. CAUTION: You’ll only be warned once and you will receive an immediate verbal warning. A second violation will result in an immediate verbal warning and a formal written reprimand to be placed in the student’s recruit personnel file. A third violation will result in the student’s dismissal from the class and no credit given for arrest and control training.

• Every technique will be done at ½ speed. No high speed or ballistic execution of techniques will be allowed. Stay with the instructor’s pace of execution, don’t assume what comes next, and get ahead of the “by the numbers” walk through. CAUTION: repeat violations of this rule will result in the student being removed from the mat and required to sit through that class session.

• Maintain balance and footing while applying a technique to your partner. If you feel yourself losing balance, let go of the technique and your partner immediately.

• Use only light pressure or torque when applying a new technique. When your partner slaps his thigh or chest (or, depending on the position you’re in, slaps your shoulder) this is the “Submission” signal and you should reduce the tension, pressure or torque immediately! Do not release the technique however; it may have taken the instructor several minutes to walk/talk you into this position. Use common sense. NOTE: basic rule of thumb is to apply torque slowly and release it quickly during training.

• Be balanced when having the technique applied to you; i.e., tolerate a little pressure or discomfort so that your partner can learn the technique properly, but…

  1. Don’t be such a “wimp” that you tap before there is any pressure of discomfort…don’t anticipate.

  2. Don’t be so “macho” that you make your partner use too much pressure or speed to apply the technique.

  3. Don’t test the technique or resist, let your partner learn the mechanics of the technique first; without the added stress of having to overcome your struggling or resisting. NOTE: many times light resistance between partners has a way of escalating through the training session until someone gets injured. You will be warned once, the second time you’ll sit out the training session, and the third time you’re out of the class!

• Control your emotions: anger, fear, impatience, and ego are the most common obstacles to optimal learning. Remember, you are working with a brother/sister peace officer or student; this is not a real life and death struggle! Maintain your professional perspective. We are not here to show who is the “Toughest” or “Bad-est” we are here to learn how to teach officers to survive on the street. Overly aggressive students or those who fail to control their temper will not be allowed to participate. BE PROFESSIONAL!
• If you are injured or, your training partner persists in being overly aggressive, applies too much resistance -force-torque, or is a safety hazard in any way, inform the instructor and corrective measures will be taken discretely and immediately.

• If you have any contagious infections, open wounds, rashes, fever, respiratory or intestinal flu, cold or sore throat, etc. Please warn your partner BEFORE you expose them to infection, and inform the instructor before you participate in that class session. Most often you can sit on the sidelines that session, still learn most of the material, and resume training the next session without spreading misery to you entire class.

• Dress appropriately. Bare feet or wrestling shoes only on the mats. No shoes that have been worn outdoors are allowed on the mats. No wrestling shoes outdoors or in the rest rooms. If you accidentally forget, spray shoes with disinfectant BEFORE getting back on the mats with them on. Wear adequate athletic support under garments as needed (men = jocks/cups; women = jog bras). Layer your clothes, you may be cold when you arrive, but you will become very warm quickly. Bring a towel and a change of dry clothes and sweat shirt/pants to wear going home. Wear clothes that do not restrict movement or that will not tear the mats (no blue jeans, slacks, button shirts or belt buckles, etc.). Long fingernails, jewelry, hairpins, hinged orthopedic braces, etc. will not be allowed on the mats.

• Students will be required to bring a heat formed mouth guard to each class session

• Students will be required to practice proper hygiene in regard to personal cleanliness and laundering of their clothing for all class sessions.
POLICY STATEMENT: Each training session involving the presentation of arrest and control techniques will develop specific safety rules pertinent to that location. The guidelines will consider the needs related to the specific psychomotor skills to be presented in each training session. The arrest and control instructor(s) will review the safety guidelines prior to each training session and will continually watch all students and staff to insure they are in compliance with all safety rules and guidelines.

FACILITIES
The Academy mat room #5-130 and the outdoor Academy training compound are suitable locations for Arrest and Control Tactics and impact weapon training.
1. The mat room has approximately 2,368 SF of indoor floor space with interlocking Swain Judo Tatami mats covering the floor space.
2. The mats are sanitized with a specially formulated mat disinfectant and conditioner purchased for this purpose before each use by students.
3. The mat area allows 20 pairs of students to practice stationary techniques such as pat-down searches, handcuffing, etc. at the same time. However, more dynamic techniques, such as takedowns, grappling, etc. require that the class be divided in half, and only 7 or 8 pairs practice at one time while the other half watches.
4. The mat room has adequate lighting, is air conditioned, and is well-ventilated.
5. The Academy training compound will be utilized for baton training which has more than adequate space allowing for the full, unobstructed swing or strike radius of the impact weapon.
6. The student locker/restrooms are located adjacent to the mat room.
7. Drinking fountains are available in the corridor adjacent to the mat room and students are required to bring water bottles to class.
8. There first aid trauma kit and portable AED is located in the RTO office which is approximately 50 feet from the mat room and is readily accessible from the mat room or to be taken to the training compound when that site is used.
9. The mat room and Academy training compound are generally free from negative environmental influences and located in a secure and isolated area, free from pedestrians, onlookers and outside distractions.

EQUIPMENT
The equipment used by the students during arrest and control training includes:
1. Students have been instructed to wear Academy BDU pants, T-shirts, athletic shoes (outdoors), wrestling shoes or socks (on the mats).
2. Students are issued individual mouthpieces which they take home and boil/fit to their upper teeth. Students are required to have these mouthpieces available for arrest and control training if needed.
3. Instructors will inspect students prior to training to ensure that they are not wearing any clothing or jewelry, and have properly trimmed their fingernails, so as not to present an injury risk to themselves or others.
4. Students are issued duty belts and blue plastic training pistols, NO FUNCTIONING FIREARMS OR AMMUNITION ARE PERMITTED IN THE AREA DURING ARREST AND CONTROL TRAINING.
5. Students are issued handcuffs and keys which they use during training. However, the Academy has also purchased training handcuffs, which do not require a key and these are sometimes used, after students have drilled adequately in the locking, double locking, and unlocking of their handcuffs.

6. Instructors will have whistles in their possession during wrestling and boxing sessions, students are instructed to “freeze” as soon as they hear a whistle blown during these activities.

7. The Academy has purchased adjustable leather boxing headgear, with face guard bars, 16 oz. training gloves, chest, and groin protectors which the students are required to wear during boxing. These are sprayed with disinfectant prior to each student putting them on.

INSTRUCTIONAL STAFF TO STUDENT RATIOS
The instructor to student ratios for Arrest and Control classes are:
1. One instructor per four active students. Two pairs of students per instructor.
2. The average class consists of approximately 26 students, 13 pairs, with half on the mats at a time, a primary instructor and two program assistants would be minimal staffing.
3. If all 13 pairs are practicing on the mats at the same time, a primary instructor and 5 program assistants would be minimal staffing.
4. One instructor per one active student during carotid neck restraint training.

SPECIFIC SAFETY RULES
The specific safety rules for arrest and control training are listed in the beginning of this document headed, “Arrest and Control Safety Guidelines.”
1. Instructors shall familiarize themselves with these rules and review them with their student classes.
2. All arrest and control training sessions shall begin with appropriate warm-up and stretching activity.
3. All techniques will be demonstrated and explained to students prior to having them perform the technique.

EMERGENCY AND SAFETY PROCEDURES
In the event of an injury during arrest and control training, the following procedures shall be followed:
1. Students are told to report all injuries to the instructor immediately.
2. Students are told to report all safety hazards to the instructor immediately.
3. Minor injuries (not requiring immediate medical attention) the student will inform the instructor whether or not they believe that they need, or want, medical attention.
4. Sponsored students with a minor injury who feel they need medical attention, will be sent to a medical facility recommended by their agency. Independent students with a minor injury, who feel they need medical attention, shall report to the AHC nurse at the LVC Campus, Building 1, Room 109. If the nurse is not available, students shall report to the Urgent Care/Family Care, 217 W. Central Ave., Lompoc, CA (805) 735-4292!)
5. Sponsored or independent students with a serious injury which requires immediate medical attention. The instructor or Academy staff member will request an ambulance by dialing 911; Academy staff will also immediately notify AHC Campus Police by dialing extension 3911 on a college phone.
6. Sponsored and independent students with a serious injury (requiring immediate medical attention) will be transported via ambulance to the Lompoc Valley Medical Center (Hospital Emergency), 1515 E. Ocean Ave., Lompoc, CA 93436, (805) 737-3300.
7. The Academy Director and Coordinator shall be notified of any serious injuries, as soon as possible.
8. All sponsored students transported to emergency medical facilities will have their agency notified by Academy staff, as soon as possible.

9. All independent students transported via ambulance will have their emergency contact (as listed on their “AHC Emergency Notification” form) notified by Academy staff, as soon as possible.

10. In the event of a serious injury that does not require emergency transport via ambulance, students shall arrange for their own transport to the appropriate medical facility. Sponsored students shall report to the medical facility recommended by their sponsoring agency. Independent students shall report to the AHC nurse at the LVC Campus, Building 1, Room 109, if the nurse is not available, students shall report to the Urgent Care/Family Care, 217 W, Central Ave., Lompoc, CA (805) 735-4292.

CHEMICAL AGENT TRAINING
SAFETY RULES AND GUIDELINES

A copy of the chemical agent testing safety rules and guidelines will be provided to each instructor and student. The instructor will discuss and review the chemical agent safety rules and guidelines with the Academy students.

The lecture portion of the class will occur in an air conditioned AHC Academy classroom #5-120. The practical training and testing will occur at the Academy Compound and the on-site gas house. Prior to use by the Academy students, the Academy Coordinator or their designee will inspect all chemical agent training sites for any safety hazards.

The primary chemical agent instructor will discuss the safety rules and guidelines at the beginning of each class session. All students are responsible for adhering to all safety rules and guidelines during chemical agent training. The first violation of any chemical agent safety rule(s) or guideline(s) will result in an immediate verbal warning. A second violation will result in an immediate verbal warning and a formal written reprimand to be placed in the student’s recruit personnel file. A third violation will result in the student’s dismissal from the class and no credit given for chemical agent training.

Prior to the start of class, the chemical agent instructors will conduct a pre-training safety inspection of all the gas masks and equipment to be used during training or testing. Prior to active chemical agent training and testing, the instructor will discuss the typical physical responses when exposed to different types of chemical agents and their respective first aid treatments.

All students enrolled in the chemical agent course will consist of students who are currently enrolled in the Allan Hancock Basic Law Enforcement Academy.

All chemical agent instructors will have successfully completed a POST approved 40-hour chemical agent instructor course and will periodically take update courses as needed.

All Academy staff and students shall follow the Policies and Procedures of Allan Hancock College and POST Guidelines for Student Safety in Certified Courses.

A copy of the firearms testing safety rules and guidelines will be provided to each instructor and student. The instructor will discuss and review the firearms safety rules and guidelines with the Academy students.

The lecture portion of the class will occur in an air conditioned AHC Academy classroom #5-120. All live fire training and testing sessions will be held at the Shooting Range, Building 9. Prior to use by the Academy students, the Academy Coordinator or their designee will inspect the range facility for any safety hazards.

Prior to the start of class, the firearms instructors will conduct a pre-training safety inspection of all firearms and safety equipment to be used during training or testing. Prior to active live fire training or testing, the primary firearms instructor will discuss the four firearms safety rules and safety guidelines at the beginning of each class session. All students are responsible for adhering to all safety rules and guidelines during firearms training. The first violation of any firearms safety rule(s) or guideline(s) will result in an immediate verbal warning. A second violation will result in an immediate verbal warning and a formal written reprimand to be placed in the student’s recruit personnel file. A third violation will result in the student’s dismissal from the class and no credit given for firearms training.

All students shall receive orientation training on the principles of firearms safety, cleaning procedures, disassembly, reassembly, safety inspections, and fundamental marksmanship skills prior to live fire training sessions.

All students, Academy staff and firearms instructors shall abide by the following four firearms safety rules at all times:

1. Treat all firearms as if they are loaded.
2. Do not allow your muzzle to cover anything you are not willing to destroy.
3. Keep your finger off the trigger until your sights are aligned and you’ve made the conscious decision to shoot.
4. Be sure of your target and what is beyond it.

When conducting firearms training in the Academy classroom 5-120, the following rules shall be adhered to:

1. Prior to being issued a firearm, the students shall have received the POST LD-35 Firearms lecture on firearms safety. This training shall include proper firearms inspection procedures to determine whether or not a firearm is in a “safe” condition and the procedures to render a firearm “safe” if it is loaded.

2. Prior to any firearm being issued to a student, the Academy staff member or firearms instructor will verify the status of each firearm. The Academy staff member or firearms instructor shall visually and physically check each firearm by locking the slide of the firearm in the “open” position, check the chamber, and magazine well to verify there is no ammunition in the firearm.

3. If the firearms training require the use of magazines, each magazine shall be inspected by an Academy staff member or their designee to ensure the magazine
followers are visible and there is no ammunition in the magazines. The magazine inspection will be performed prior to the magazines being issued to a student and taken into the classroom.

4. Immediately upon receipt of a firearm from an Academy staff member or firearms instructor, each student shall visually and physically verify the status of the firearm by insureing the action is open, the magazine well is empty, and the chamber is clear to ensure there is no ammunition in the firearm.

5. Whenever dry fire firearms practice is conducted in the Academy Classroom, the above process shall be followed. During dry fire practice, dry fire targets shall be attached to the brick (west) wall only.

Students are responsible for reading, understanding, and complying with the following Range Safety Rules.

1. Always adhere to the four basic firearms safety rules.
   - **Treat all firearms as if they are loaded.**
   - **Do not allow your muzzle to cover anything you are not willing to destroy.**
   - **Keep your finger off the trigger until your sights are aligned and you’ve made the conscious decision to shoot.**
   - **Be sure of your target and what is beyond it.**

2. Always wash hands thoroughly after shooting any firearm to remove any lead residue.

3. Any behavior deemed unsafe by a firearms instructor or Academy staff member will be grounds for removal from the range and no credit given for that training day.

4. Ballistic vests shall be worn at all times by students on the range.

5. Never load any firearm on the firing line unless commanded to do so by a firearms instructor. Loading magazines is permissible behind the firing line.

6. Never dry practice behind the firing line unless you are training with a firearms instructor.

7. Never talk to anyone on the firing line, unless you are instructing, being instructed, or working as a range staff member.

8. In case of a firearm malfunction, keep the firearm pointed down-range, clear the malfunction and continue the course of fire.

9. Always keep the muzzle pointed down-range and never load a firearm unless the muzzle is pointed down range.

10. Never lay a firearm down without unloading it and locking the slide in the “open” position.
11. Looking through the chamber, visually check the barrel of a firearm for any obstruction before firing. Heavy grease is considered an obstruction.

12. While on the firing line all handguns shall remain in the holster and snapped until instructed by a firearms instructor to remove the firearm.

13. Never fire a succeeding shot following a malfunction of a cartridge, wait until a firearms instructor has examined the firearm. In the case of defective “squib” cartridge, the report will not be normal. The gun will be pointed towards the target area for a period of ten seconds to allow for the possibility of a delayed fire. At such time, the gun should be unloaded and the muzzle checked for obstructions.

14. Never approach the target area until receiving a voice command from a firearms instructor.

15. Never permit the muzzle of a firearm to touch the ground. If the muzzle touches the ground, do not fire the firearm until the barrel has been checked for dirt or debris obstructions. Only a firearms instructor is authorized to check the end of the barrel.

16. Never handle, point, or look over the sights of any firearms handed to you without first opening the action of the firearm and checking the chamber to be sure it is not loaded. Always check the firearm twice; the first time to see if it is unloaded and the second time to verify you were right the first time.

17. **ALL** students shall wear their ballistic vest, eye, and ear protection wherever at a range facility.

18. Students will never carry any handgun while cocked (exception-old style 45 Auto).

19. All firearms safety rules and guidelines must be strictly adhered to and will be enforced at all times. To help prevent accidents and/or injuries the strictest discipline will be maintained by all students at all times while on the firing ranges. Carelessness behavior and/or failure to follow directions of any type will not be tolerated during firearms training. Any Academy staff member, firearms instructor, or range staff member can remove a student from the firing line or the range itself for any unsafe practices or violations of firearms safety rules and guidelines. The student will not receive any credit given for that training day.

20. Any “horse play,” practical jokes, or other immature/inappropriate behavior deemed so by an Academy staff member, firearms instructor or range staff will be grounds for removal from the range and no credit given for that training day.

21. Students not participating in training shall be separated from those students involved in the training. Students shall remain under supervision of staff.

All firearms instructors shall have completed a 40-hour POST certified Firearms Instructor course.
While conducting live fire range exercises, the firearms instructor staff to student ratio shall not exceed five “active” students per firearms instructor.

During live fire exercises, a specific safe area shall be designated by the firearms instructor for non-shooting students. The safe area shall be sufficient distance away from the live fire shooting area to provide a wide margin of safety. Academy staff and students shall wear eye and ear protection while engaged in shooting or while in the immediate vicinity of the firing line.

Students shall be given an orientation on the prescribed courses of fire and given the opportunity to practice each course of fire prior to testing. Students shall be notified, in advance, when they will be testing for firearms qualification. Students must demonstrate a pattern of overall proficiency and competency as required by each testing criteria in the eight test areas on the POST Required Evaluation Test form.

Academy staff and students shall adhere to all rules and guidelines governing the safe operation of firearms training pursuant to Allan Hancock College’s Policies and Procedures and the California Commission on Peace Officers Standards and Training “Guidelines for Student Safety in Certified Courses.”

Any safety concerns identified by a student shall be immediately brought to the attention of any Academy staff member or firearms instructor.
POLICY STATEMENT: Each training session involving the use of firearms will develop specific safety rules specific to that range location. The guidelines will consider the safety needs related to the specific firearms training goal and live-fire exercises. The firearms instructor will post the Academy’s Four Firearms Safety Rules at the range training site. The firearms instructor(s) will review the safety rules and guidelines prior to each training session and will continually watch all students and staff to insure they are in compliance with all safety rules and guidelines.

PHYSICAL CONDITIONING COURSES
SAFETY RULES AND GUIDELINES

A copy of these rules and guidelines will be provided to each instructor and a discussion of the rules will be conducted at the beginning of each Academy class. All class sessions will occur in the outdoor Academy Physical Fitness Compound, weight room #5-128, mat room #5-130, running trails/roadways surrounding the college or other locations which are inspected for safety and approved by the Academy Coordinator prior to use.

All equipment to be used in a session of physical conditioning shall be inspected for safety by the instructor prior to the students using it.

All primary physical training instructors shall have completed the 40-hour POST Basic Academy Physical Training Advanced Instructor’s Course. Secondary instructors shall have, as soon a practical, complete the POST 24-hour Basic Academy Physical Training Instructor’s course.

All Academy students shall have received proper written medical clearance, and have documentation on file with the Academy prior to any physical conditioning activity.

Students shall be notified in advance of the physical demands of the Academy physical conditioning program. The POST and Academy performance expectations shall be made clear to the student class prior to testing.

Training on the principles of conditioning, injury prevention and self-treatment, procedures for reporting injuries and obtaining medical attention, nutrition, body composition and lifelong fitness shall be provided to the students prior to physical conditioning activities.

Training on the safe and proper use of resistance exercise equipment shall be provided to students prior to their use of the college strength lab.

All physical conditioning sessions shall begin with a warm up activity, stretch, then the conditioning activity and finally a cool down activity.

Off-site distance runs shall generally be conducted during daylight hours (exceptions would require proper lighting, protection from vehicular traffic, etc.) On distance runs using the surrounding public roadways, a chase car shall be used whenever possible. Staff leading these distance runs shall have emergency communications capability (cell phone, etc.). On distance runs, students shall be issued, and required to wear mesh reflective vests.

Prior to class runs, the Academy staff shall run street distance run courses on a regular basis to ensure that the running surfaces are reasonably free from hazards. Realistically, occasional potholes, rocks, traffic, construction/repair, cracks in the sidewalk, gravel, etc. cannot be completely eliminated from any course on a public roadway. But, an unusually high presence of these types of hazards shall prompt staff to select an alternate route.

All students are required to bring water to every physical conditioning class (“camel-back” type hydration back packs are recommended but not required on distance runs).

Academy staff shall adhere to the “POST Basic Academy Physical Conditioning Manual” and the scheduled physical conditioning activity for that day. Exceptions can be made, with the
Coordinator’s approval, for inclement weather or in consideration of the elevated fatigue/injury levels of a particular student class.

Instructor to student ratios should not exceed one instructor per thirty students. Normally a second instructor/program assistant/RTO or a chase car driver, should accompany a class on distance runs.
ACADEMY PHYSICAL CONDITIONING

SITE SPECIFIC

SAFETY RULES AND GUIDELINES

ACADEMY TRAINING COMPOUND, WEIGHT ROOM,
MAT ROOM, AND PUBLIC TRAILS/ROADWAYS

POLICY STATEMENT: Each training session involving the presentation of physical conditioning activities will develop specific safety rules pertinent to that location. The guidelines will consider the needs related to the specific physical conditioning activities to be engaged in and the location(s). The physical fitness instructor will review the safety guidelines prior to each training session and will continually watch all students and staff to insure they are in compliance with all safety rules and guidelines.

FACILITIES AND EQUIPMENT
The Academy fitness compound is approximately 4 acres and houses a regulation 440 yard running track, six foot high solid wall, chain link fence, dummy drag area, circuit exercise apparatus (dip bars, pull up bars, sit up benches, pull up bars, etc.), and POST 99-yard obstacle course. The public trails/roadways surrounding the AHC Lompoc Valley campus are where the majority of the long distance runs (ranging from 2 miles to 5 ½ miles) are performed.

1. The Academy training compound is approximately a 4 acre site, partially sports field turf and partially decomposed granite.
2. A regulation 440 yard running track with a surface area of decomposed granite surrounds the compound.
3. The 99 yard POST regulation obstacle course, 6-foot solid wood wall, 6-foot chain link fence, and dummy drag area are contained inside the running track on decomposed granite outside the sports field turf area.
4. Several exercise apparatus including a pull up bar station, a dip bar station, a push up bar station, and a sit up slant board station are located within the perimeter of the 440 yard running track with a surface area of decomposed granite.
5. The Academy training compound is essentially level and free of pedestrian/vehicular traffic, obstacles, and debris.
6. The weight room #5-128 and the mat room #5-130 are well lit, ventilated and the equipment is well maintained. State of the art ProMaxima Performance Plus weight lifting machinery, treadmill, elliptical and bicycle were acquired in February 2009.
7. Injured students may be sent to the weight room, depending on their physical restrictions, while their classmates engage in other activities (e.g., while the class goes on a distance run, or while the class does the calisthenics circuit on the football field and track).
8. The student locker rooms with showers, lockers and restrooms are located in Building 5.
9. Students are required to bring bottled water or a “camel back” type pack when participating in physical conditioning.
10. Distance runs are conducted on public roadways and trails surrounding the Academy. All Academy approved running courses are mapped out on aerial photos from “Google-Earth.com” and are kept in a binder on the Academy Coordinator’s desk.
11. Academy staff shall pre-run courses on a regular basis, without the student class, to inspect them for an excessive number of smaller hazards such as cracks in the pavement, pot holes, broken glass, etc. Larger hazards, construction sites, sheer drop offs, narrow traffic vs. pedestrian separations, large and deep holes, etc. would be cause to select a different running course until these hazards were removed or repaired.
12. On all distance runs which are conducted on public roadways, students are required to wear reflective mesh vests and bring drinking water.
13. A black and white police vehicle equipped with a first aid kit trauma kit, portable AED and cell phone will be driven as a chase car when the students run on public roadways.
14. An Academy staff member who is a POST Certified Physical Training Instructor shall run with the students when they run on public roadways. The instructor(s) shall be wearing an Academy red T-shirt or polo type shirt.

INSTRUCTIONAL STAFF TO STUDENT RATIOS
The instructor to student ratios for Academy physical conditioning classes are:
1. Two instructors per 30 students during most physical training sessions.
2. On distance runs on a public roadway, a second Academy staff member shall accompany the primary instructor either by running with the primary instructor or by driving the Academy chase car.
3. If only one Academy staff member is available on a day when a distance run is scheduled, they generally should not run on a public roadway. Instead they should have the class run in the compound or on the main campus track.

SPECIFIC SAFETY RULES

EMERGENCY VEHICLE OPERATION COURSES
SAFETY RULES AND GUIDELINES

A copy of the Emergency Vehicle Operation Course (EVOC) safety rules and guidelines will be provided to each instructor for review with the students. The instructor will discuss and review the EVOC safety rules and guidelines with the students.

The lecture portion of the class will occur in an air conditioned AHC training classroom. The practical training and testing will occur at the EVOC Compound. Prior to use by the students, the Coordinator or their designee will inspect the EVOC training site for any safety hazards.

The primary EVOC instructor will discuss the safety rules and guidelines at the beginning of each class session. All students are responsible for adhering to all safety rules and guidelines during EVOC training. The first violation of any EVOC safety rule(s) or guideline(s) will result in an immediate verbal warning. A second violation will result in an immediate verbal warning and a formal written reprimand to be placed in the student’s recruit personnel file. A third violation will result in the student’s dismissal from the class and no credit given for EVOC training.

Prior to the commencement of any EVOC training, the instructor staff shall advise the students of their responsibility to operate all vehicles in a safe and controlled manner at all times. Intentional misconduct which jeopardizes the safety of student(s) or instructor(s) can result in the immediate failure of EVOC training course.

Prior to active EVOC training and testing, the EVOC instructor will discuss the use of seatbelts, five point safety harnesses and other vehicle safety equipment. The instructor or training staff shall inspect all AHC vehicles for safety hazards or obvious mechanical defects prior to EVOC training and periodically throughout the training day. All AHC vehicles used in EVOC training are given annual vehicle safety inspections by a local automotive repair facility. Students will also conduct vehicle safety inspections during the training and the students are graded on their ability to perform those inspections. Any mechanical problems identified will be addressed immediately by either fixing the problem or pulling the vehicle from the EVOC training exercise until the mechanical problem is corrected.

Vehicles will not be operated with excessively worn tires or any other mechanical defects which could impede its safe operation. A sufficient fleet of safety inspected vehicles is available if a vehicle needs to be pulled from EVOC training for an immediate repair.

All students enrolled in EVOC courses will be peace officers, County or City volunteers or students who are currently enrolled in the Allan Hancock Basic Law Enforcement Academy.

All EVOC instructors will have successfully completed a POST approved 40-hour EVOC instructor course and will periodically take update courses as needed.

All staff and students shall follow the Policies and Procedures of Allan Hancock College and POST Guidelines for Student Safety in Certified Courses.

Students cannot operate any Allan Hancock College (AHC) Law Enforcement Academy motor vehicle unless they possess a valid driver’s license. All students are required to submit proof of a valid driver’s license along with a current DMV printout as part of the enrollment process into the Law Enforcement Academy.
Academy staff shall ensure that each recruit student possesses a valid driver’s license prior to operating an AHC motor vehicle. The RTO will periodically inspect the driver’s license of each student to ensure that they are valid.

Students are required to wear helmets and five point safety harnesses during high speed exercises. The helmets meet current DOT and SNELL standards and students are provided a sanitized head coverings to be worn under the helmet. The instructors will ensure that the helmets are properly strapped prior to starting of any high speed EVOC exercise.

Instructor to student ratio shall not exceed one active student to one EVOC instructor during high speed cornering and Code-3 pursuit driving exercises. For grading purposes, the 1:1 student/instructor ratio is maintained throughout EVOC training. The exception to the 1:1 student/instructor ratio is during low speed/precision driving. The instructor will give a practical demonstration of all the low speed precision driving techniques and then allow the students to practice the slow speed maneuvers on their own. The EVOC instructor can observe the low speed precision driving from outside or inside of the vehicle. The instructor will be in constant radio contact with the students.

Training staff, EVOC instructors, and students shall follow the Policies and Procedures of Allan Hancock College and POST Guidelines for Student Safety in Certified Courses.
POLICY STATEMENT: Each training session involving the use of AHC emergency vehicles will develop specific safety rules that pertain to that driving location. The safety rules and guidelines will consider the needs related to the specific emergency vehicle operations exercises. The instructors will review EVOC safety rules and guidelines prior to each training session to ensure compliance by staff and students.

FACILITIES
All EVOC training is held on the EVOC compound, to include the 1.3 mile high speed track, the collision avoidance site, the skid pan and precision driving area at the AHC Public Safety Training Complex.

1. All driving surfaces are in compliance with the City of Lompoc municipal code.
2. The 1.3 mile track is striped, has rumble strips and proper signage for varying driving conditions or restrictions.
3. The entrance to the EVOC area is controlled by a gated access point. Allan Hancock College Emergency Vehicle Operations Course Training signs are posted on the fence line surrounding the EVOC compound.
4. The driving track has status lights, warning of possible hazards.
5. The area has been engineered and sloped to provide proper drainage.
6. The male and female restrooms and drinking fountain are located in Building 9, which is adjacent to the EVOC compound.
7. The area has running water, electrical power and adequate lighting.

EQUIPMENT
1. Students and instructors are required to wear helmets during all high speed driving EVOC exercise training and testing.
2. A Ford Crown Victoria, mounted onto a “SKIDCAR” platform is used for skid car training; however, there are water hydrants located around the skid pan to provide water if the skid car is not used.
3. Only certified instructors are allowed to operate the “SKIDCAR” controls while students are driving that vehicle.
4. The primary EVOC vehicles are Dodge Chargers and Ford Crown Victoria’s equipped with police packages and the vehicles designated for high speed exercises are equipped with five point safety harnesses.
5. All vehicles used in EVOC exercises or testing have annual safety inspections performed by a local automotive repair facility.
6. Tires are routinely changed as needed during EVOC training to insure that they are not becoming tread bare and dangerous.
7. A fire extinguisher, first aid/trauma kit, portable AED, and emergency extrication bar are on site at all EVOC training sessions.
8. EVOC vehicles are equipped with a mobile radio, internal siren, and light bars. The mobile radio allows the EVOC instructor to be in contact at all times with students. During an emergency an EVOC instructor can stop all driving activity immediately via radio.

INSTRUCTIONAL STAFF TO STUDENT RATIOS
On slow speed exercises using the “SKIDCAR” the student to instructor ratio is 1:4 with the instructor riding in the passenger seat, and two to three students in the back seat of the vehicle.

After slow speed exercises (parallel parking, cornering techniques, off-set alley, etc.) are demonstrated by an EVOC instructor. The students are then allowed to drive and practice all slow speed exercises without an instructor in the vehicle. The student to instructor ratio can be 1:5 during slow speed precision driving exercises. The EVOC instructor provides coaching to the students via hand held radio to mobile radio.

On high speed exercises and tests, students and instructors are required to wear helmets and five point safety harnesses. All high speed exercises the instructor to student ratio is 1:1 with no student passengers.

EMERGENCY AND SAFETY PROCEDURES

In the event of an injury during EVOC training, the following procedures shall be followed:

1. Students are told to report all injuries to the instructor immediately.
2. Students are told to report all safety hazards to the instructor immediately.
3. Minor injuries (not requiring immediate medical attention) the student will inform the instructor whether or not they believe that they need, or want, medical attention.
4. Sponsored students with a minor injury who feel they need medical attention, will be sent to a medical facility recommended by their agency. Independent students with a minor injury, who feel they need medical attention, shall report to the AHC nurse at the LVC Campus, Building 1, Room 109. If the nurse is not available, students shall report to the Urgent Care/Family Care, 217 W. Central Ave., Lompoc, CA (805) 735-4292.
5. Sponsored or independent students with a serious injury which requires immediate medical attention. The instructor or Academy staff member will request an ambulance by dialing 911; Academy staff will also immediately notify AHC Campus Police by dialing extension 3911 on a college phone.
6. Sponsored and independent students with a serious injury (requiring immediate medical attention) will be transported via ambulance to the Lompoc Valley Medical Center (Hospital Emergency), 1515 E. Ocean Ave., Lompoc, CA 93436, (805) 737-3300.
7. The Academy Director and Coordinator shall be notified of any serious injuries, as soon as possible.
8. All sponsored students transported to emergency medical facilities will have their agency notified by Academy staff, as soon as possible.
9. All independent students transported via ambulance will have their emergency contact (as listed on their “AHC Emergency Notification” form) notified by Academy staff, as soon as possible.
10. In the event of a serious injury that does not require emergency transport via ambulance, students shall arrange for their own transport to the appropriate medical facility. Sponsored students shall report to the medical facility recommended by their sponsoring agency. Independent students shall report to the AHC nurse at the LVC Campus, Building 1, Room 109, if the nurse is not available, students shall report to the Urgent Care/Family Care, 217 W. Central Ave., Lompoc, CA (805) 735-4292.
I have read and understand all of the “Safety Rules and Guidelines” for Emergency Vehicle Operation Course (EVOC) training. I agree to abide by these safety rules and guidelines during all Academy EVOC training.

DRILL
&
CEREMONY
This page intentionally left blank
Marching is an important component of Law Enforcement Academy training. Although, in the field peace officers rarely march as part of their job, there are numerous hidden benefits of having Recruits march.

First of all, the marching encourages teamwork and cooperation among the Recruits. It also helps the Recruits build command presence and assists with their ability to take charge. This is directly related to real-life situations they will face in their jobs, since peace officers frequently are required to take charge of a given situation and direct people to “Don’t move”, “Sit down”, “Stay in the car”, “Keep your hands where I can see them”, etc. Marching also represents tradition and regimental law enforcement training in a para-military environment.

Marching can also put a Recruit in a safe but emotionally charged environment where they are under moderate stress. Recruits may become frustrated and/or angry, but must use self-discipline by remaining calm and clear-headed. Marching allows the RTO to observe how Recruits maintain their professional composure under stressful circumstances.

The following pages contain the drill and ceremony manual as used by the Allan Hancock College Law Enforcement Academy. The drill and ceremony manual was written in simple language with the goal of establishing consistency and understanding by Recruits and Recruit Training Officers.
MARCHING CADENCES/RUNNING CADENCES

Cadences, sometimes called “jodies”, are designed to not only keep a group of recruits in step, but are also used to motivate and inspire cadets, giving them a sense of teamwork and pride in their unit, their jobs, and themselves. The recruit leadership is occasionally required to know and call an appropriate cadence when marching a group of recruits, or during a physical fitness run. The cadences listed on the following pages are marching cadences. A list of running cadences can be found in the running cadence section. It is a good idea for all recruits to become familiar with these cadences and to know at least four marching and four running cadences it is appropriate to change words in cadences to fit the Law Enforcement atmosphere.

Dropped some whitewash in my eye

I’m just glad that cows can’t fly.
GET UP!

Hey everybody I have got a song
Sound a lot better if you sing along!

(chorus)

Well get up! A little louder!
Well get up on up a little louder!

When I’m a walkin’ I strut my stuff!
When I’m a runnin’, can’t get enough!

(chorus)

Got me a Bradley big as a whale!
Got me a tooth as big as me tail!

Standin’ tall and lookin’ good!
Oughta be in Hollywood!

LAW ENFORCEMENT PT

Early one morning in the pouring rain,
Mr. Dossey said it was time for pain,
Grab your running shoes and follow me,
It’s time for hardcore PT.
We jogged nine miles and we ran three,
Mr. Dossey yelling follow me!
We jogged two then ran eight more!
Law Enforcement PT sure is great!

Up in the morning before the rising sun
Gonna’ run a 100 miles before the day is done
Out on the road in the pouring rain,
Gotta keep on running, don’t mind the pain
If you want it
You’ve got to earn it
It ain’t easy
You’ve got to work for it
You’ve got to strain for it
AHC
Action Honor Commitment

Everywhere we go,
People want to know
Who we are,
So we tell them
Class ___ is who we are

This P.T, ain’t bothering me,
Just to show you that we are fit,
We’ll keep running until you quit

Look to the left, look to the right,
And what do you see?
A bunch of people looking at me,
So lift your head and hold it high
The pride of Class #_____ is running on by

Up in the morning at the break of day
There just ain’t no other way
Gonna run all day,
Gonna run all night
Gonna run, run, run
Until the broad day light
PASSION FOR LAW ENFORCEMENT
By Officer Keith Falerios

Who’s that running, who’s at the door?
   It’s class _____
Sweatin’, hurlin’, suckin’ wind
So when there’s a fight, we’re gonna win
   With our vests and old running shoes
   We know we’re paying our dues
Push-ups, and memos is all we ever do
If you can’t hang then you are through
   I know it and so do you
Don’t cry me the blues when you’re through
   Hit the gate and hit the road
   I’m busy getting’ strong and bold
   I’m here just for fun
So I can carry a night stick and a gun
Shinny badge pinned on my chest
   Polished bright
   Ready to fight
   Code 3
   Hell yea
   Code 3
   Just for fun
   I can do it
   You can do it
Class #______ kicking doors
   Getting yours
Crack head, hot meal, cold bed
Going to jail to just like I said
Booking dirt bags is what I do
If you can’t hang then you are through

RECITATION GUIDE
I. **Honor:** 1. One deserving of esteem or respect. 2. Reputation. 3. Personal integrity. 4. To confer distinction upon one deserving. Who you ARE at your core; what you stand for; essentially your moral or ethical reputation or standing in the eyes of others.

*less than 100 years ago people would die rather than tolerate a challenge to their “honor” – dueling

II. **Duty:** 1. Something that a person ought to, or must do. 2. Moral obligation. 3. A service, action or task assigned, such as military service or law enforcement. 4. Something one has given an oath to do (sworn officers) or perform.

*instinct to protect the weak from predators, the innocent from deception, the peaceful from violence, to protect lives and property and protecting everyone's Constitutional rights to liberty, justice and equality.

III. **Integrity:** 1. Strict adherence to a high moral standard, value or code of conduct. 2. Personal honesty and independence from peer pressure; desire to be liked or popular, a reverence for the law.

*Trustworthy, Honesty: testimony in court under oath, custody of evidence entrusted to you. (Stealing, cheating, or lying as an officer would destroy your integrity; your word is your value. Once your credibility is compromised, you are washed up as a cop.)

IV. **Courage:** 1. The ability to face danger without fear.

*However, there is a difference between physical courage and moral courage; not always the absence of fear, BUT, proper/courageous action in spite of fear.

*there is no place for cowardice in law enforcement, it is still a termination offense in most agencies. It doesn’t mean you are never afraid, rather, it means you perform your duty in the face of danger, in spite of your fears.

V. **Discipline:** 1. Training intended to elicit a specific pattern of behavior OR character; 2. Behavior that results from such training.

*External vs. internal discipline. Self-Discipline is the key to a good officer. The academy begins with external discipline, but, overtime; you should INTERNALIZE it to become self-disciplined. This is the goal of Academy discipline.
VI.  
Compassion: 1. Active sympathetic concern for the suffering of another, (i.e. mercy.) 2. Respect for differences; cultural, gender, religious, ethnic, sexual orientation, etc.

*Compassion differs from sympathy, in that it compels one to take action to relieve the suffering of another.

*Ignorance is the major obstacle to developing compassion for others who are different from you! It is NOT their responsibility to educate you or to change their behavior. Rather, as a law enforcement professional, it is YOUR responsibility to educate yourself, to eradicate your own ignorance and respect those you have sworn to serve and protect.
As A Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest, in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department.

Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...Law Enforcement.

DIRECTIONS FOR SPIT-SHINGING SHOES

Plain toed leather shoe/boot:

Spread a thick layer of paste polish over the leather to be spit shined. Allow it to dry for 5 minutes. Wrap a soft, clean cloth around your index finger so you have a smooth area on the end of your finger and dip it in water so it is thoroughly wet but not dripping (see note one below).

Using a small circular motion (see note two below), buff the dried polish in a circular motion and keep on rubbing lightly until a hazy shine develops. Keeping the rag damp, build up the shine with thin layers of polish applied in circles with light pressure until a glossy shine develops.

When sufficient shine has developed, use a clean, dry, soft cloth to give it a final buff and remove any last haze.

NOTE:

1. The reason you use a wet cloth is to stop the fine coats of polish sticking to the cloth and to encourage the polish to stick to the leather. You want to keep on building up thin layers of wax until you have a completely smooth surface that gives the glossy shine

2. After the first heavy coat of polish you must use minimal amounts of polish to build up the shine. If you use too much polish, the solvent in the polish you apply will dissolve the base you have already built up and you will have to start again in that area.
